Section I: Spinal Anatomy and Evaluation

Section I-A: Spinal Structure

| | | | |
|--|----|--|----|
| 1A Surgical Anatomy of the Cervical Spine | 5 | | |
| <i>Michael F. O'Brien†</i> | | | |
| 1A.1 Introduction | 5 | 1A.3.3 Axis (C2) | 11 |
| 1A.2 Descriptive Anatomy | 5 | 1A.3.4 Subaxial Spine (C3–C7) | 11 |
| 1A.2.1 Occipital Condyles and Skull Base (C0) | 5 | 1A.4 Anatomic Structures at Risk | 12 |
| 1A.2.2 Atlas | 6 | 1A.4.1 Spinal Cord | 12 |
| 1A.2.3 Axis (C2) | 8 | 1A.4.2 Vertebral Artery | 12 |
| 1A.2.4 Subaxial Vertebra (C3–C7) | 8 | 1A.4.3 Nerve Roots | 13 |
| 1A.2.5 Ligaments | 9 | 1A.4.4 Facet Joints | 13 |
| 1A.3 Anatomy Specific for Internal Fixation | 10 | 1A.5 Tips and Pearls | 14 |
| 1A.3.1 Occiput | 10 | References | 14 |
| 1A.3.2 Atlas (C1) | 11 | | |
| 1B Surgical Anatomy of the Thoracic Spine | 15 | | |
| <i>Michael F. O'Brien†</i> | | | |
| 1B.1 Introduction | 15 | 1B.3.2 Lamina and Spinous Processes | 19 |
| 1B.2 Descriptive Anatomy | 16 | 1B.3.3 Pedicles | 19 |
| 1B.2.1 Vertebral Bodies | 16 | 1B.3.4 Vertebral Body | 20 |
| 1B.2.2 Pedicles | 16 | 1B.4 Anatomic Structures at Risk | 20 |
| 1B.2.3 Facet Joints | 17 | 1B.4.1 Spinal Cord | 20 |
| 1B.2.4 Transverse Processes | 17 | 1B.4.2 Nerve Roots | 20 |
| 1B.2.5 Lamina and Spinous Processes | 17 | 1B.4.3 Vessels | 20 |
| 1B.2.6 Costovertebral Joints | 17 | 1B.5 Tips and Pearls | 20 |
| 1B.3 Anatomy Specific for Internal Fixation | 17 | References | 21 |
| 1B.3.1 Transverse Processes | 17 | | |

| | | | | |
|-----------|---|----|--------------|--|
| 2A | Surgical Anatomy of the Lumbar Spine | 23 | | |
| | <i>Hanna Algattas, D. Kojo Hamilton, and Vincent Arlet</i> | | | |
| 2A.1 | General Description of the Lumbar Vertebra | 23 | 2A.7.1 | The Spinous Processes..... 29 |
| 2A.2 | The Lumbar Vertebral Body: Relevant Anatomy for Anterior Screw Fixation | 23 | 2A.7.2 | The Transverse Processes |
| 2A.3 | The Pedicle..... | 25 | 2A.8 | Anatomy of the Pars Interarticularis |
| 2A.4 | Dangers of Pedicle Screw Fixation in the Lumbar Spine | 27 | 2A.9 | The Spinal Canal and the Foramina |
| 2A.5 | Anatomic Dangers of Lumbar Anterior Instrumentation and Pedicle Screw | 27 | 2A.9.1 | Anatomic Nuance in Neuronavigation and Minimally Invasive Spine Surgery..... |
| 2A.6 | Surgical Anatomy of the Lamina | 27 | 2A.10 | Tips and Pearls |
| 2A.7 | The Zygapophyseal Joints or Lumbar Facets..... | 28 | | References |
| | | | | 33 |
| 2B | Surgical Anatomy of the Sacrum and Pelvis | 35 | | |
| | <i>Vincent Arlet</i> | | | |
| 2B.1 | Introduction..... | 35 | 2B.7 | Anatomical Relationships Relevant to L5–S1 Surgery |
| 2B.2 | Descriptive Anatomy of the Sacrum..... | 35 | 2B.8 | Descriptive Anatomy of the Ilium |
| 2B.3 | The Sacrum for Bony Fusion and Spinal Instrumentation | 37 | 2B.9 | The Ilium for Bone Graft Harvesting |
| 2B.3.1 | The L5–S1 Facets..... | 37 | 2B.10 | The Strength of the Iliac Crest |
| 2B.4 | The Best S1 Pedicle Screws | 39 | 2B.11 | The Iliac Bones for Instrumentation |
| 2B.4.1 | The S2 Pedicle | 39 | 2B.12 | Dangers of Iliac Bone Harvesting and Iliac Instrumentation |
| 2B.4.2 | The S3 Pedicle | 39 | 2B.13 | Neuronavigation and Minimally Invasive Sacral Anatomy |
| 2B.5 | The Lateral Masses for Intracanal Rod Fixation..... | 40 | 2B.14 | Tips and Pearls |
| 2B.5.1 | The L5–S1 Disk Space..... | 40 | | References |
| 2B.6 | Miscellaneous Use of the Sacrum Anatomy for Fixation..... | 40 | | 45 |
| 3 | Neuroanatomy of the Spine | 47 | | |
| | <i>Martin Gehrchen and Michael F. O'Brien†</i> | | | |
| 3.1 | Central Nervous System..... | 47 | 3.2.8 | Cervical Nerve Roots |
| 3.1.1 | Microscopic Neuroanatomy | 47 | 3.2.9 | Thoracic Nerve Roots..... |
| 3.2 | Macroscopic Neuroanatomy..... | 48 | 3.2.10 | Lumbar Nerve Roots |
| 3.2.1 | Brain Stem Anatomy | 48 | 3.2.11 | Sacral Nerve Roots..... |
| 3.2.2 | Brain Stem Pathology..... | 49 | 3.3 | Pathologic Entities Affecting Nerve Roots ... |
| 3.2.3 | Spinal Cord Gross Anatomy..... | 50 | 3.3.1 | Cervical Pathology..... |
| 3.2.4 | Spinal Cord Cross-Sectional Anatomy | 50 | 3.3.2 | Thoracic Pathology |
| 3.2.5 | Spinal Cord Blood Supply | 55 | 3.3.3 | Lumbar Pathology |
| 3.2.6 | Spinal Cord Pathology | 55 | 3.4 | Tips and Pearls |
| 3.2.7 | Development of Dermatomes, Myotomes, and Sclerotomes..... | 58 | | References |
| | | | | 64 |

| | | | | | |
|------------|---|----|--------------|--------------------------------|----|
| 4 | Embryology and Maturation of the Spine | 65 | | | |
| | <i>Joseph P. Maslak, Michael H. McCarthy, Sohaib Z. Hashmi, and John F. Sarwark</i> | | | | |
| 4.1 | General Developmental Concepts | 65 | 4.4.3 | Canal Growth | 67 |
| 4.2 | Altered Growth: Malformations, Deformations, and Disruptions | 65 | 4.5 | Growth Mechanisms | 67 |
| 4.3 | Embryogenesis | 65 | 4.5.1 | Vertebral Growth | 67 |
| 4.3.1 | Atlas and Axis Formation | 66 | 4.5.2 | “Ring” Apophysis | 68 |
| 4.3.2 | Neural Arch Formation | 66 | 4.5.3 | Growth Slowdown Lines | 68 |
| 4.3.3 | Chondrification | 66 | 4.5.4 | Growth Cessation | 68 |
| 4.3.4 | Ossification | 67 | 4.6 | Vasculature | 68 |
| 4.4 | Postnatal Development | 67 | 4.7 | Tips and Pearls | 68 |
| 4.4.1 | Cord Growth | 67 | | References | 68 |
| 4.4.2 | Neurocentral Synchondroses | 67 | | | |

Section I-B: Spinal Mechanics and Radiographic Measurements

| | | | | | |
|------------|---|----|-------------|---|-----|
| 5 | Biomechanics of the Spine | 71 | | | |
| | <i>Thomas R. Maher, Evan H. Belanger, Ross R. Moquin, and Steven Caruso</i> | | | | |
| 5.1 | Introduction | 71 | 5.4.1 | The Kyphogenic Nature of the Anterior Approach and Anterior Instrumentation | 82 |
| 5.2 | Mechanical Behavior: The Spine as a Structure | 71 | 5.4.2 | Biomechanical Analysis of the Anterior Correction and Instrumentation for Thoracic Curves | 82 |
| 5.2.1 | Forces | 73 | 5.4.3 | Force Application in the Formation of Scoliosis .. | 82 |
| 5.2.2 | Implant Mechanics | 75 | 5.4.4 | Asymmetric Growth of the Spine | 83 |
| 5.2.3 | Moment of Inertia | 77 | 5.4.5 | Force Application | 83 |
| 5.3 | Spinal Biomechanics: The Correction of a Curve | 78 | 5.4.6 | Finite Element Analysis | 83 |
| 5.3.1 | The Intervertebral Disk | 78 | 5.4.7 | Mechanics of the Instrumented Spine (Spinal Mechanics + Implant Mechanics) | 84 |
| 5.3.2 | Derotation and Structures Preventing Derotation | 78 | 5.5 | Clinical Correlation | 88 |
| 5.3.3 | Control in the Sagittal Plane | 80 | 5.5.1 | Anterior Instrumentation | 88 |
| 5.3.4 | Addressing the Sagittal Profile | 81 | 5.5.2 | Posterior Instrumentation | 88 |
| 5.4 | Kyphosis | 82 | 5.6 | Tips and Pearls | 89 |
| | | | | References | 89 |
| 6 | Mechanisms of Sagittal Balance | 91 | | | |
| | <i>Pierre Roussouly and Amer Sebaaly</i> | | | | |
| 6.1 | Introduction | 91 | 6.6 | Degenerative Spinal Evolution | 96 |
| 6.2 | Pelvic Sagittal Parameters: The Plinth of Sagittal Balance | 91 | 6.7 | Surgical Strategies in Correcting Rigid Spinal Sagittal Deformity | 98 |
| 6.3 | Spinal Sagittal Parameters: Are We Speaking the Same Language? | 92 | 6.8 | Proximal Junctional Kyphosis: A Complication of Faulty Surgical Strategy ... | 100 |
| 6.4 | Spinal Balance Parameters: Metric versus Angular | 94 | 6.9 | Conclusion | 101 |
| 6.5 | Spinal Shapes in the Normal Population | 95 | 6.10 | Tips and Pearls | 101 |
| | | | | References | 101 |

| | | | | |
|------------|---|-----|------------|--|
| 7 | Radiographic Measurements in Spinal Deformity | 103 | | |
| | <i>Sebastien Charosky and Kathleen M. Blanke</i> | | | |
| 7.1 | Introduction | 103 | 7.4 | Complications/Revision Cases |
| 7.2 | Radiographic Views Used in Evaluating Spinal Deformity | 104 | 7.5 | New Tools, 3D Imaging, 3D Printing, Planning Software |
| 7.3 | Radiographic Measurements and the Information They Provide | 106 | 7.6 | Tips and Pearls |
| 7.3.1 | Coronal Measurements | 106 | | References |
| 7.3.2 | Sagittal Measurements | 107 | | |
| 8 | Spinopelvic Parameters | 113 | | |
| | <i>Tejbir S. Pannu, Frank J. Schwab, and Virginie Lafage</i> | | | |
| 8.1 | Introduction | 113 | 8.5.1 | Spinopelvic Mismatch (PI-LL) |
| 8.2 | Pelvic Parameters | 113 | 8.5.2 | T1 Pelvic Angle (TPA) |
| 8.2.1 | Pelvic Incidence (PI) | 113 | 8.6 | Relevance of These Parameters |
| 8.2.2 | Sacral Slope (SS) and Pelvic Tilt (PT) | 114 | 8.6.1 | Relationship with Patient-Reported Outcomes .. |
| 8.2.3 | Evolution of PT and SS across PI Spectrum | 114 | 8.7 | Correction Associated with Improvement in Disability |
| 8.3 | Regional Curvatures | 114 | 8.7.1 | Radiographic Outcome |
| 8.3.1 | Lumbar Lordosis (LL) | 114 | 8.7.2 | Patient-Specific Era |
| 8.3.2 | Thoracic Kyphosis (TK) | 115 | 8.7.3 | Age-Specific Parameters |
| 8.3.3 | Cervical Curvature | 115 | 8.8 | Conclusion |
| 8.4 | Global Alignment | 115 | 8.9 | Tips and Pearls |
| 8.4.1 | Sagittal Vertical Axis (SVA) | 115 | | References |
| 8.4.2 | T1 Spinopelvic Inclination (T1SPi) | 115 | | |
| 8.5 | Deformity Parameters | 116 | | |

Section I-C: Clinical and Radiographic Evaluation of Spinal Deformities

| | | | | |
|-------------|--|-----|-------------|---|
| 9 | Evaluation of the Patient with Congenital Spine Deformity | 123 | | |
| | <i>John E. Lonstein</i> | | | |
| 9.1 | Introduction | 123 | 9.4.2 | Computed Tomogram |
| 9.2 | History Taking | 123 | 9.4.3 | Magnetic Resonance Imaging |
| 9.3 | Physical Examination | 123 | 9.4.4 | Myelography |
| 9.3.1 | Evaluation of the Spine Itself | 123 | 9.4.5 | Ultrasonography |
| 9.3.2 | General Patient Evaluation | 124 | 9.4.6 | Pulmonary Function Evaluation |
| 9.4 | Radiologic and Other Imaging | 124 | 9.5 | Tips and Pearls |
| 9.4.1 | Standard Films | 124 | | References |
| 10 | Evaluation of the Pediatric and Adolescent Spinal Patient | 131 | | |
| | <i>Karim Shafi, Sravisht Iyer, and Christopher J. DeWald</i> | | | |
| 10.1 | History | 131 | 10.3 | Syndromic and Neuromuscular Scoliosis |
| 10.2 | Physical examination | 131 | 10.3.1 | Duchenne's Muscular Dystrophy |

| | | | | | |
|-------------|--|-----|-------------|---|-----|
| 10.3.2 | Neurofibromatosis | 133 | 10.4 | Conclusion | 133 |
| 10.3.3 | Marfan's Syndrome | 133 | 10.5 | Tips and Pearls | 134 |
| 10.3.4 | Cerebral Palsy | 133 | | | |
| 10.3.5 | Congenital Scoliosis | 133 | | | |
| 11 | Evaluation of Neuromuscular and Syndromic Spinal Deformity Patients | 135 | | | |
| | <i>Ozgur Dede and Peter F. Sturm</i> | | | | |
| 11.1 | Introduction | 135 | 11.2.6 | Discussion with the Patient and the Parents (or the Caregiver) | 140 |
| 11.2 | General Considerations | 135 | 11.3 | Conclusion | 140 |
| 11.2.1 | History | 135 | 11.4 | Tips and Pearls | 140 |
| 11.2.2 | Physical Examination | 135 | | References | 141 |
| 11.2.3 | Preoperative Evaluation | 136 | | | |
| 11.2.4 | Imaging | 140 | | | |
| 11.2.5 | Rehabilitation | 140 | | | |
| 12 | Evaluation of the Adult Spinal Deformity Patient | 143 | | | |
| | <i>Sapan D. Gandhi, Evan D. Sheha, and Mark B. Dekutoski</i> | | | | |
| 12.1 | Introduction | 143 | 12.4.3 | Computed Tomography | 145 |
| 12.2 | History | 143 | 12.4.4 | Dual-Energy X-Ray Absorptiometry | 146 |
| 12.2.1 | Symptomatology | 143 | 12.5 | Nonsurgical Treatment | 146 |
| 12.2.2 | Medical History | 144 | 12.6 | Surgical Decision-Making | 146 |
| 12.2.3 | Social History | 144 | 12.7 | Expectation Management | 147 |
| 12.3 | Physical Examination | 145 | 12.8 | Conclusion | 147 |
| 12.4 | Imaging | 145 | 12.9 | Tips and Pearls | 147 |
| 12.4.1 | Radiographs | 145 | | References | 147 |
| 12.4.2 | Magnetic Resonance Imaging | 145 | | | |

Section II: Spinal Pathologies

Section II-A: Bony Pathologies

| | | | | | |
|-------------|--|-----|-------------|--|-----|
| 13 | Degenerative Disk Disease | 153 | | | |
| | <i>Chelsea Frost, Lawal A. Labaran, and Hamid Hassanzadeh</i> | | | | |
| 13.1 | Introduction | 153 | 13.5 | Advancements in Treatment | 154 |
| 13.2 | Disk Anatomy and Physiology | 153 | 13.6 | Conclusion | 155 |
| 13.3 | Etiology of Degenerative Disk Disease and Low Back Pain | 153 | 13.7 | Tips and Pearls | 155 |
| 13.4 | Pathophysiology | 154 | | References | 155 |
| 14 | Spinal Inflammatory Arthritides | 157 | | | |
| | <i>Evan D. Sheha, Sapan D. Gandhi, and Nicholas U. Ahn</i> | | | | |
| 14.1 | Introduction | 157 | 14.4 | Psoriatic Arthritis | 159 |
| 14.2 | Ankylosing Spondylitis | 157 | 14.5 | Rheumatoid Arthritis | 159 |
| 14.3 | Reactive Arthritis | 158 | | References | 160 |

| | | | | |
|-------------------------------------|--|-----|---------------|---|
| 15 | Spinal Neuroarthropathy (Charcot's Spine) | 163 | | |
| | <i>Bo Zhang and Khaled M. Kebaish</i> | | | |
| 15.1 | Introduction | 163 | 15.3.7 | Miscellaneous |
| 15.2 | Incidence | 163 | 15.4 | Pathogenesis |
| 15.3 | Etiology | 163 | 15.5 | Diagnosis |
| 15.3.1 | Congenital | 163 | 15.6 | Treatment |
| 15.3.2 | Metabolic | 163 | 15.7 | Tips and Pearls |
| 15.3.3 | Neuromuscular | 163 | | References |
| 15.3.4 | Traumatic | 163 | | |
| 15.3.5 | Infectious | 163 | | |
| 15.3.6 | Neoplastic | 164 | | |
| 16 | Pyogenic Vertebral Infection | 169 | | |
| | <i>Majd Marrache and Amit Jain</i> | | | |
| 16.1 | Introduction | 169 | 16.3.1 | Epidural Abscess |
| 16.1.1 | Definitions | 169 | 16.3.2 | Nonoperative Treatment of Diskitis/Osteomyelitis |
| 16.1.2 | Pathophysiology and Pathology | 169 | 16.3.3 | Spinal Instability |
| 16.1.3 | Epidemiology | 169 | 16.3.4 | Surgical Treatment |
| 16.1.4 | Bacteriology | 169 | 16.3.5 | Surgical Approaches |
| 16.2 | Diagnosis | 170 | 16.3.6 | Childhood Diskitis/Osteomyelitis |
| 16.2.1 | Clinical Presentation | 170 | 16.3.7 | Surgical Site Infections |
| 16.2.2 | Diagnostic Testing | 170 | 16.4 | Conclusion |
| 16.2.3 | Imaging | 170 | 16.5 | Tips and Pearls |
| 16.2.4 | Culture | 170 | | References |
| 16.2.5 | Differential Diagnosis | 170 | | |
| 16.3 | Treatment | 171 | | |
| 17 | Management of Metastatic Disease to the Spine | 177 | | |
| | <i>Jason A. Horowitz, Lawal A. Labaran, Francis H. Shen, and Hamid Hassanzadeh</i> | | | |
| 17.1 | Introduction | 177 | 17.5.1 | Medical Therapy |
| 17.2 | Pathophysiology | 177 | 17.5.2 | Radiation Therapy |
| 17.3 | History and Physical Examination | 177 | 17.5.3 | Surgical Management |
| 17.4 | Diagnostic Testing | 178 | 17.5.4 | Subaxial Cervical Spine |
| 17.4.1 | Imaging | 178 | 17.5.5 | Thoracic and Lumbar Spine |
| 17.4.2 | Biopsy | 180 | 17.5.6 | New Advances |
| 17.5 | Treatment | 181 | 17.6 | Conclusion |
| | | | | References |
| | | | | |
| Section II-B: Neuropathology | | | | |
| 18 | Spinal Trauma and Neurological Injury | 187 | | |
| | <i>Rojeh Melikian and Kirkham B. Wood</i> | | | |
| 18.1 | Introduction | 187 | 18.3 | Spinal Cord Injury Syndromes |
| 18.2 | Spinal Cord Injury and Classification | 187 | 18.4 | Spinal Shock and Neurogenic Shock |

| | | | | | |
|-----------|--|-----|--------|--|-----|
| 18.5 | Neurological Assessment | 191 | 18.7 | Tips and Pearls | 192 |
| 18.6 | Reflexes | 191 | | References | 192 |
| 18.6.1 | Surgical Options | 192 | | | |
| 19 | Anterior Horn Cell Disease: Poliomyelitis, Spinal Muscular Atrophy, and Acute Transverse Myelitis | | | | 195 |
| | <i>James W. Ogilvie</i> | | | | |

| 23.1.1 | Introduction | 215 | 23.2.1 | Introduction | 218 |
| 23.1.2 | Curve Types | 215 | 23.2.2 | Association of CP and Scoliosis | 218 |
| 23.1.3 | Bracing | 215 | 23.2.3 | Natural History of Scoliosis in CP | 220 |
| 23.1.4 | Surgery | 216 | 23.2.4 | Risk Factors for Developing Scoliosis | 220 |

Contents

| | | | | | |
|-------------|--|------------|-----------------------------|--|------------|
| 23.2.5 | The Relationship Between Intrathecal Baclofen, Dorsal Rhizotomy, and Scoliosis | 220 | 23.3.3 | Becker's Muscular Dystrophy | 221 |
| | | | 23.3.4 | Less Common Muscular Dystrophies | 221 |
| | | | 23.3.5 | Future Areas of Study | 222 |
| 23.3 | Muscular Dystrophies | 220 | 23.4 | Conclusion | 222 |
| 23.3.1 | Introduction | 220 | References | 222 | |
| 23.3.2 | Duchenne Muscular Dystrophy and Scoliosis | 221 | | | |

Section III: Pediatric and Adolescent Spinal Deformity

Section III-A: Pediatric and Adolescent Spinal Deformities

| | | | | | |
|-------------|---|------------|-----------------------------|--|------------|
| 24 | Congenital Scoliosis and Kyphosis | 229 | | | |
| | <i>Noriaki Kawakami and Randall T. Loder</i> | | | | |
| 24.1 | Introduction | 229 | 24.6 | Congenital Kyphosis | 239 |
| 24.2 | Etiology and Demographics | 229 | 24.6.1 | Classification and Natural History | 239 |
| 24.3 | Associated Conditions | 230 | 24.6.2 | Treatment | 240 |
| 24.4 | Imaging | 231 | 24.7 | Tips and Pearls | 241 |
| 24.5 | Congenital Scoliosis | 232 | References | 241 | |
| 24.5.1 | Classification and Natural History | 232 | | | |
| 24.5.2 | Treatment | 234 | | | |
| 25 | Idiopathic Scoliosis: Prevalence and Natural History | 245 | | | |
| | <i>Scott Nelson and James O. Sanders</i> | | | | |
| 25.1 | Prevalence and Incidence | 245 | 25.2.1 | Mortality | 248 |
| 25.1.1 | Age of Onset | 245 | 25.2.2 | Cardiac and Pulmonary Function | 249 |
| 25.1.2 | Scoliosis Progression in the Immature | 245 | 25.2.3 | Back Pain | 249 |
| 25.2 | Long-Term Natural History | 248 | 25.2.4 | Pregnancy | 252 |
| | | | References | 254 | |
| 26 | Genetics of Adolescent Idiopathic Scoliosis | 257 | | | |
| | <i>James W. Ogilvie</i> | | | | |
| 26.1 | Introduction | 257 | References | 258 | |
| 26.2 | Tips and Pearls | 258 | | | |
| 27 | Neuromuscular Scoliosis | 259 | | | |
