

## Table of Contents

### Part I Why We Need Clinical Research

1	Historical Perspectives of Clinical Research . . . . .	3
2	Evidence-Based Surgery Defined . . . . .	8
3	Myths and Misconceptions about Evidence-Based Medicine . . . . .	12
4	Becoming an Evidence-Based Surgeon . . . . .	20

### Part II Principles of Clinical Research

5	Various Research Design Classifications . . . . .	31
6	Hierarchy of Research Studies: From Case Series to Meta-Analyses . . . . .	37
7	Randomized and Nonrandomized Studies . . . . .	44

#### Part II A Understanding Research Study Design

8	The Clinical Case Series . . . . .	47
9	The Case–Control Study . . . . .	49
10	The Prospective Cohort Study . . . . .	55
11	The Randomized Trial . . . . .	59
12	Meta-Analysis . . . . .	68
13	Economic Analysis . . . . .	77
14	The Diagnostic Study . . . . .	85
15	The Reliability Study . . . . .	91

#### Part II B Understanding Outcomes Measurement

16	The Classification of Outcomes . . . . .	101
17	What Makes an Outcome Measure Useful . . . . .	107
18	Common Generic Outcome Scales for Surgeons . . . . .	112
19	Common Disease-Specific Outcome Scales for Surgeons . . . . .	116

#### Part II C Understanding Treatment Effects

20	Common Ways to Present Treatment Effects . . . . .	121
21	The Confidence Interval Defined . . . . .	127
22	The <i>P</i> Value Defined . . . . .	132
23	Errors in Hypothesis Testing . . . . .	135
24	Clinical versus Statistical Significance . . . . .	139

### Part III Practice of Clinical Research

#### Part III A Planning a Research Study

25	The Requirements of a Clinical Research Proposal . . . . .	145
26	The Identification of a Good Research Question . . . . .	153
27	How to Conduct a Comprehensive Literature Search . . . . .	158
28	Guide to Planning a Randomized Trial . . . . .	164
29	Guide to Planning a Nonrandomized Study . . . . .	170
30	Study Sample Size . . . . .	177
31	How to Budget for a Research Study . . . . .	181
32	Research Ethics, Review Boards, and Consent Forms . . . . .	196
33	Regulatory Issues in the Evaluation of a New Device or Drug . . . . .	203
34	Strategies in Research Funding . . . . .	210

#### Part III B Conducting a Research Study

35	The Roles of the Research Team . . . . .	215
36	The Role of a Central Methods Center . . . . .	222
37	The Role of a Data Monitoring Committee . . . . .	230
38	The Need for Separate Adjudication of Outcomes . . . . .	237
39	Data Management . . . . .	243
40	Study Case Report Forms . . . . .	248
41	The Study Manual of Operations . . . . .	258

#### Part III C Practical Guide to Statistical Analysis

42	Review of Basic Statistical Principles . . . . .	269
43	Statistical Means and Proportions . . . . .	279
44	Regression Analysis . . . . .	288
45	Analysis of Variance . . . . .	294
46	Correlation Defined . . . . .	301

<b>Index</b> . . . . .	<b>309</b>
