A

abdominal wall fat, harvesting 194
abscess
 drainage, Bezold mastoiditis 390
epidural 393–394
epiglottic 226, 226
floor of mouth 169, 169
gravitation 389
lingual 167–168, 168
lymph nodes, cervical 264–265
mediastinal, drainage 301
nasal septum 54–55
oral cavity 167, 167–169
orbital subperiosteal 147, 148
parotid 307, 307–308
peritonsillar 163, 164
retropharyngeal 165
septal 55
submental–submandibular 167
subperiosteal, orbit 147, 148
tongue 167–168, 168
tonsillectomy 164–165
 after tonsillectomy 160
accessory nerve
 injury management 266
 in neck dissection 274–275, 275
adductor paralysis, unilateral 193
adenoidectomy 149–150, 150, 151
 conchotome tissue removal 149, 151
 pharyngeal recess curettage 149, 151
 positioning 149, 150
 ring knife movement 149, 151
adenoids, shave resection 150
adenoma, pleomorphic, recurrence 313
adenotonsillectomy 162
Adson–Brown forceps 49, 50
advancement flap 20, 22, 22
aesthetic line, brow-tip 81, 82
aesthetic surgery, nose 73
aesthetic units
 facial skin 10, 10–11
 nose 30, 32
agger nasi cell 113
air cells
 in antrotomy 390–391
 ear canal roof 377
 mastoid 354, 378, 387, 388
ala *see* nasal ala
alar collapse 101, 102
anastomosis, end-to-end
 tracheal avulsion 217
 tracheal stenosis 210, 210–211
anatomy, external ear 317–320, 318, 319, 320
anesthesia
 bronchoscopy 233
 dosage 4
 ear 315–316, 316
 endonasal surgery 114
 general 6–7
 infiltration 5
 for laryngectomy 241–242
 local 4–5
 maxillary sinus 115
 regional 5
 side effects 4
 for tonsillectomy 155–156, 156, 160, 161
 topical 4
 tracheotomy 220, 220

angiofibroma
 nasopharyngeal 153–154, 154
 vs. adenoids 150
 tongue 170
anterior–posterior approach, cholesteatoma 384–385, 384–386
antibiotics, perioperative, head and neck surgery 264
antihelical fold
 absence 323
 creation 322, 328, 329
 with stiff cartilage 330, 330–331
 straight segment 335, 335
antihelix 320, 320
 asymmetry 335
 contour irregularities 335
 hematoma 344, 345
 lower third 330
antroscopy, maxillary sinus 114
antrotomy 377, 390
 in infants 390–391, 391
antrum, inspection, in otitis media 377
apnea *see* sleep apnea syndrome
argon-plasma coagulation, for tonsillectomy 163
arterial flaps 21
arterial supply, ear 319, 319
arteries, injury management 266
aryepiglottic folds
 short 198
 in total laryngectomy 258, 259
arytenoid
 in cricothyroidopiglottopexy 255
 in cricothyroidopexy 253
 fixation, extralaryngeal lateral 203–204, 204
 lateralization 203–204, 204
 Mündrich approach 203
 in total laryngectomy 258, 259
arytenoidectomy 203–204, 204
 transoral 202
 unilateral 201
Asai method 262
assessment, preoperative 1–3
asymmetry, antihelix 335
atresia, choanal 104, 104–105, 105
atropine 5
attached earlobe, correction 337, 338
attic
 in cholesteatoma surgery 380
 dissection 384
atticoantrotomy 377, 378–383, 379–384
atticotomy 378, 383–384, 384
Aufrecht retractor 49, 50
augmentation, glottic closure 194
auricle 317–351
 anatomy 317–320, 318, 319, 320
 anesthesia 320, 322
 appendages 342
 avulsion 345, 346
 cyst 342–343
 defects, after otoplasty 336
 dysplasia 339
 exposure 324, 325
 fistula 32, 342–343
 injuries 343–345
 lacerations 343
 malformations 339–343
 perichondritis 344–345
 position and shape 320, 320, 324

prominent *see* prominent ear
setback 322, 324, 325
 with concha–mastoid suture 332, 332–333
shape, lateral view 320
size 320
skin defects 343
stiff cartilage 330, 330–331
surface, suture point definition 326, 328, 329
tumors 345, 347
see also concha; ear; ear canal; helix; oto-auricular artery, posterior 319, 319, 320
avulsion
 auricle 345, 346
 trachea 217, 217–218
axial pattern flap 21

B

Bakamjian's deltopectoral flap 24
ballooning phenomenon, nose 47, 56
Bergler APC dissector 163
Bezold mastoiditis 389–390
bicoronal incision 145
 frontal sinus surgery 132, 133
bilobed flaps 22, 24
 cheek 30, 32
Binder syndrome 69, 93
biopsy
 esophagus 297–298
 in flexible tracheobronchoscopy 234
 in laryngotracheoscopy 190
 nasopharynx 152
 vocal folds 235, 235
bipedicled flap 20, 24
bleeding
 management, in glomus tumor surgery 285
 nose 109, 109–110, 110
 see also hemorrhage; hemostasis
blood donation, autologous 2–3
blue line, in saccotomy 407
bone-anchored hearing aids (BAHA) 409
bone cement 366
bony pyramid, nose 46, 46
 and saddle-nose deformity 93
botulinum toxin, for spastic dysphonia 206
branchial cleft
 cysts 279–280, 279–280
 fistula 280–282, 281
breathing tube, and choanal atresia 104, 105
broken-line technique, scar revision 17, 18
bronchial divisions, telescope angles 232
bronchoscope, rigid, insertion 231, 232
brow-tip aesthetic line 81, 82, 94
buccal skin, U-shaped flap 338
buccal tumor 174, 175
 see also cheek
buckling, cartilage graft 92–93, 94
bulla, ethmoid 113
buttonhole stricture, ear canal 350

C

Caldwell–Luc procedure 126
canal-wall-down technique, cholesteatoma 377–378
carcinoma
 buccal mucosa 174

 triflupromazine 5
 T-tube insertion, and myringotomy 356, 357
 tubed pedicle flap 20, 24
 tube insertion, and myringotomy 355–357,
 356
 tumor
 auricle 345, 347
 carotid body 284
 concha 347, 347, 348
 fragmentation, vocal fold carcinoma 237
 helix 347, 349
 malignant, paranasal sinus region 134–139
 oral cavity, benign 170, 170–171, 171
 oropharynx, benign 170, 170–171, 171
 tongue, malignant 172, 172–177, 174
 tonsillectomy 177–179, 179
 see also carcinoma
 turbinates
 inferior 106, 106–107, 107
 middle
 excision 125
 pneumatized 107–108, 108
 resection 106–108, 106–108
 turbinoplasty, inferior 106, 107
 turnover flap
 cheek 30
 hinged 20, 24
 tympanic membrane
 and exostosis removal 354
 injuries 395
 minor surgery 355–358, 356, 357
 perforation, splinting 357–358, 358
 reconstruction, type I 368–369, 368–371,
 371
 tympanic sinus *see* sinus tympani
 tympanomeatal flap 368, 368, 370, 383, 385
 in endaural approach 359, 360
 in stapedectomy 400
 tympanoplasty 367–386
 antrum inspection 377
 cartilage–perichondrium composite
 graft 370–371
 graft 369, 369
 materials 370–371
 mastoidectomy during 377, 378
 modified underlay technique 370, 371
 onlay technique 370
 ossicular chain reconstruction 372–376,
 372–376
 with PORG 374, 374
 with TORP 374–375, 375
 palisade technique 370, 371, 371
 type II, lenticular process defect 372
 type IIIA 381
 incus defect/loss 372
 type IIIB 374, 381
 type IV 375, 376
 Wullstein classification 367
 tympanosclerosis 376
 tympanoscopy 405
- U**
- uncinate process 111
 underlay technique, modified, tympanoplasty 370, 371
 under-overlay technique, in tympanoplasty 371
 underprojection, nose 95, 96
 U-shaped breathing tube 104, 105
 U-shaped flap incision
 buccal skin 338
 laryngectomy 245, 245
 total 257
 uvula
 carcinoma 174
 resection 182, 183
 uvulopalatopharyngoplasty (UPPP) 182–183,
 183
 uvulopalatoplasty, laser-assisted 183, 184
- V**
- vagal nerve, injury 273
 vallecula, carcinoma 180
 vascular malformations, larynx 198–199
 vascular pedicle flaps 19
 vascular sheath, neck 275
 in cervical esophagotomy 300
 in cervical mediastinotomy 301
 veins, injury management, in lymph-node dissection 266
 vermillion border, deformity correction 39, 39
 vertical mattress suture 14, 14, 15
 vertigo
 after stapedectomy 403
 treatment 406–408
 vestibule, nose 46, 47
 viability, pedicle flaps, assessment 21
 vocal folds
 biopsy 235, 235
- carcinoma 234, 244
 in situ 235, 236
 T1b 236, 236, 237
 T2 and T3 237, 237–238
 unilateral 247
 cordectomy 241–242
 cysts 192–193
 excision 242, 244
 Friedrich medialization 194–195, 195
 paralysis 202
 polyps 192
 thinning 202
 see also dysphonia
 voice
 deterioration 203, 242, 246
 prosthesis 262
 rehabilitation after laryngectomy 262
 see also speech
 vomerine spur 55
 removal 68
 resection 63
 V–Y plasty 18, 19, 332
- W**
- waiver, and informed consent 2
 web formation, anterior commissure 207
 web, laryngeal 193
 wedge resection
 crooked nose correction 89, 89
