Contributors xliii

I: Anatomy

1. Craniovertebral Junction 3
Nader S. Dahdaleh

1.1 **Key Points** 3

1.2 **Bony Anatomy** 4

1.3 **Neural Anatomy** 4

1.4 **Vascular Anatomy** 5

1.5 **Muscular Anatomy** 6

1.6 **Ligamentous Anatomy** 6

1.7 **Surgical Pearls** 10

Common Clinical Questions 11

Answers to Common Clinical Questions 11

References 11

2. Cervical Spine 12
Ivan Angelov, Ebubechi Adindu, Woralux Phusoongnern, and Comron Saifi

2.1 **Key Points** 12

2.2 **Bony Anatomy** 12

2.2.1 **Bony Landmarks** 12

2.2.2 **Vertebrae Anatomy** 13

2.2.3 **Geometric Measurements** 14

2.2.4 **Biomechanics and Mobility** 14

2.3	Neural Anatomy	14	2.5	Ligamentous and Muscular Anatomy	19
2.3.1	Geometric Orientation.	14	2.5.1	Ligamentous Anatomy	19
2.3.2	Cervical Plexus and Phrenic Nerve	15	2.5.2	The Carotid Triangle	19
2.3.3	Brachial Plexus	15	2.5.3	Muscular Anatomy	20
2.3.4	Sympathetic Ganglia	16	2.6	Variations in Anatomy	20
2.4	Vascular Anatomy	17	2.7	Surgical Pearls	20
2.4.1	Vertebral Artery Segments: V1 to V4	17	Common Clinical Questions.	21	
2.4.2	Blood Supply to Spinal Cord	17	Answers to Common Clinical Questions.	21	
2.4.3	Venous Drainage	17	References	22	
2.4.4	Transverse Foramen and the Vertebral Artery	18			
3.	Thoracic Spine	23			
	<i>Lance Villeneuve, Xiaochun Zhao, and Zachary A. Smith</i>				
3.1	Key Points.	23	3.6	Surgical Pearls	27
3.2	Bony Anatomy	23	Common Clinical Questions.	29	
3.3	Neural Anatomy	25	Answers to Common Clinical Questions.	29	
3.4	Vascular Anatomy	26	References	30	
3.5	Ligamentous and Muscular Anatomy.	27			
4.	Lumbar Spine	31			
	<i>Azeem A. Rehman and Cara Sedney</i>				
4.1	Key Points.	31	4.6	Surgical Pearls	40
4.2	Bony Anatomy	31	Common Clinical Questions.	43	
4.3	Neural Anatomy	33	Answers to Common Clinical Questions.	43	
4.4	Vascular Anatomy.	34	References	43	
4.5	Ligamentous and Muscular Anatomy.	38			

5.	Sacral–Iliac Spine	44		
	<i>Pedro Aguilar-Salinas and Mauricio J. Avila</i>			
5.1	Key Points	44	5.6	Surgical Pearls
5.2	Bony Anatomy	44		Common Clinical Question
5.3	Neural Anatomy	46		Answer to Common Clinical Question
5.4	Vascular Anatomy	47		References
5.5	Ligamentous and Muscular Anatomy	48		
II: Clinical Spine Surgery				
6.	Physical Examination	53		
	<i>Mark S. Greenberg</i>			
6.1	Key Points	53		Common Clinical Questions
6.2	Main Components of the Spinal-Related Examination	53		Answers to Common Clinical Questions
6.3	Clinical Pearls	59		References
7.	Spinal Imaging	62		
	<i>Melissa Yunting Tang, James D. Whaley, Edward L. Baldwin III, Jeremy D. Shaw, and Joon Y. Lee</i>			
7.1	Key Points	62		Answers to Common Clinical Questions
7.2	Description	62		References
7.3	Surgical Pearls	68		
	Common Clinical Questions	68		
8.	Radiation Exposure in Spine Surgery	71		
	<i>Javier Quillo-Olvera, Javier Quillo-Reséndiz, and Michelle Barrera-Arreola</i>			
8.1	Key Points	71	8.3	General Principles of Radiation Protection
8.2	Description	72		

8.4	Evidence-Based Medicine Statements	75	Answers to Common Clinical Questions	76
8.5	Surgical Pearls	75	References	76
	Common Clinical Questions	76		
9. Electrodiagnostic Testing in Spine Surgery				78
<i>Kamakshi Patel and Holli A. Horak</i>				
9.1	Key Points	78	Common Clinical Questions	82
9.2	Description	79	Answers to Common Clinical Questions	83
9.2.1	Nerve Conduction Study	79	References	83
9.2.2	Electromyogram (EMG)	79		
9.2.3	Pathophysiology of Radiculopathy	81		
9.3	EMG/NCS Pearls	82		
10. Intraoperative Neuromonitoring in Spine Surgery				84
<i>Alexander T. Yahanda, Miguel A. Ruiz-Cardozo, and Camilo A. Molina</i>				
10.1	Introduction	84	10.10 Neuromonitoring for the Detection of Radiculopathy in Three-Column Osteotomies	89
10.2	Key Points	84	10.11 Mechanomyography	90
10.3	Methods	85	10.12 Epidural D Wave Monitoring for Intradural/ Intramedullary Pathology	90
10.4	Somatosensory Evoked Potentials	85	Common Clinical Questions	91
10.5	Transcranial Electrical Motor Evoked Potentials	87	Answers to Common Clinical Questions	91
10.6	Free-Run EMG	87	References	91
10.7	Triggered EMG	88		
10.8	H Reflex	88		
10.9	Neuromonitoring in Spinal Deformity Surgery	88		

11. Bedside Procedures	93		
<i>Muhamed Hadzipasic, Ian David Connolly, John H. Shin, and Theresa Williamson</i>			
11.1 Key Points	93	11.5.2 Lumbar Puncture or Lumbar Drain	100
11.2 Indications	93	11.6 Outcomes	100
11.3 Technique	94	11.7 Surgical Pearls	100
11.3.1 Halo Orthosis and Traction	94	11.7.1 Halo Orthosis and Traction	100
11.3.2 Lumbar Puncture or Lumbar Drain	97	11.7.2 Lumbar Puncture or Lumbar Drain	101
11.4 Complications	99	Common Clinical Questions	101
11.4.1 Halo Orthosis and Traction	99	Answers to Common Clinical Questions	101
11.4.2 Lumbar Puncture or Lumbar Drain	99	References	102
11.5 Postprocedure Care	100		
11.5.1 Halo Orthosis and Traction	100		
12. Orthotics in Spine Surgery	103		
<i>Melissa MJ Chua and Yi Lu</i>			
12.1 Key Points	103	12.8 Thoracolumbosacral Orthoses (TLSO)	106
12.2 Indications	103	12.9 Lumbosacral Orthoses (LSO)	106
12.3 Biomechanics of Spinal Orthoses	103	12.10 Sacroiliac Orthoses (SIO)	107
12.4 Classifications	104	Common Clinical Questions	107
12.5 Cervical Orthoses (CO)	104	Answers to Common Clinical Questions	107
12.6 Cervicothoracic Orthoses (CTO)	106	References	107
12.7 Cervicothoracolumbosacral Orthoses (CTLSO)	106		

13. Pharmacology of Antithrombotics, Antifibrinolytics, and Osteoporosis Medications	109		
<i>Omar Sorour, Mohamed Macki, Alysha Jamieson, Praveen V. Mummaneni, and Leslie Robinson</i>			
13.1 Key Points	109	13.7 Osteoporosis Medications	115
13.2 Prophylactic Anticoagulation	109	13.8 Surgical Pearls	118
13.3 Treatment of Preoperative Thromboembolic Events	110	Common Clinical Questions	118
13.4 Treatment of Postoperative Thromboembolic Events	110	Answers to Common Clinical Questions	119
13.5 Reversal of Anticoagulation	110	References	119
13.6 Antifibrinolytic Agents	115		
14. Spine Biologics	121		
<i>Raj Swaroop Lavadi, Alexander Yahanda, Galal A. Elsayed, and Nitin Agarwal</i>			
14.1 Key Points	121	14.5.3 Bone Morphogenetic Protein	125
14.2 Introduction	121	14.5.4 Synthetic Biologics	125
14.2.1 Evolution and Market Growth	121	14.6 Pediatric	130
14.2.2 Basic Properties	122	14.7 BOE Classification	130
14.3 Classification	122	14.8 MISS and Biologics	130
14.4 Autologous Biologics	123	14.9 Current Developments and Trends	131
14.4.1 Autografts	123	14.10 Surgical Pearls	132
14.4.2 Bone Marrow Aspirate	124	Common Clinical Questions	132
14.4.3 Growth Factors	124	Answers to Common Clinical Questions	132
14.5 Allogenic Biologics	124	References	132
14.5.1 Allografts	124		
14.5.2 Demineralized Bone Matrix	125		

III: Spinal Pathology

15. Congenital Anomalies	137		
<i>Mark Stephens, Jared Fridley, Eric Momin, and Andrew Jea</i>			
15.1 Key Points	137	15.4 Anomalies of Dysjunction	141
15.2 Vertebral Developmental Abnormalities	137	15.4.1 Spinal Lipomas	141
15.2.1 Congenital Scoliosis	137	15.4.2 Myelomeningocele	141
15.2.2 Klippel-Feil Syndrome (KFS)	139	15.5 Surgical Pearls	142
15.3 Anomalies of Notochord Formation	140	Common Clinical Questions	145
15.3.1 Split Cord Malformations (SCMs)	140	Answers to Common Clinical Questions	145
		References	145
16. Cervical Trauma	147		
<i>Gregory D. Schroeder and Alexander R. Vaccaro</i>			
16.1 Key Points	147	16.3.4 Dens Fracture (C2)	154
16.2 General Principles	147	16.3.5 Subaxial Cervical Spine Trauma (C3–C7)	156
16.3 Upper Cervical Spine Trauma	149	Common Clinical Questions	158
16.3.1 Atlantooccipital Dissociation	149	Answers to Common Clinical Questions	159
16.3.2 Atlas (C1) Fracture	151	References	159
16.3.3 Axis (C2) Fracture and Traumatic Spondylolisthesis of C2 (Hangman's Fracture)	152		
17. Thoracolumbar Trauma	161		
<i>Anirudh Penumaka and Martina Stippler</i>			
17.1 Key Points	161	17.3.1 Key Concepts	165
17.2 General Principles	161	17.4 Bracing	168
17.3 Thoracolumbar Fracture ..	162		

17.5	Conus Medullaris and Cauda Equina Syndromes	168	Common Clinical Questions	170
17.6	Spinal and Neurogenic Shock	169	Answers to Common Clinical Questions	170
			References	170
18.	Sacro pelvic Trauma			173
	<i>Emiliano Vialle</i>			
18.1	Key Points	173	18.4.3 Workup	179
18.2	Sacral Fractures	173	18.4.4 Neuroimaging	179
18.2.1	Background	173	18.4.5 Treatment	179
18.2.2	Signs, Symptoms, and Physical Examination	175	18.4.6 Surgical Pearls	180
18.2.3	Workup	175	18.5 Traumatic Spinopelvic Dissociations (Type C3 Injuries)	180
18.2.4	Neuroimaging	176	18.5.1 Background	180
18.2.5	Treatment	176	18.5.2 Signs, Symptoms, and Physical Examination	181
18.2.6	Surgical Pearls	176	18.5.3 Workup	181
18.3	Type B Injuries	177	18.5.4 Neuroimaging	181
18.3.1	Background	177	18.5.5 Treatment	181
18.3.2	Signs, Symptoms, and Physical Examination	177	18.5.6 Surgical Pearls	181
18.3.3	Workup	177	Common Clinical Questions	182
18.3.4	Neuroimaging	177	Answers to Common Clinical Questions	182
18.3.5	Treatment	177	References	182
18.3.6	Surgical Pearls	178		
18.4	Type C Injuries	178		
18.4.1	Background	178		
18.4.2	Signs, Symptoms, and Physical Examination	179		
19.	Infection			184
	<i>Wilson E. Vaughan, Brian Q. Hou, W. Hunter Waddell, and Byron F. Stephens</i>			
19.1	Key Points	184	19.2.1 Etiology, Epidemiology, and Pathogenesis	185
19.2	Pyogenic Vertebral Osteomyelitis and Diskitis	185	19.2.2 Patient Presentation	186
			19.2.3 Diagnostic Workup	186
			19.2.4 Treatment	186

19.2.5	Prognosis/ Complications	187	19.4.5	Prognosis/Complications. . .	189
19.3	Epidural Infections	187	19.5	Postoperative Infections . . .	190
19.3.1	Etiology, Epidemiology, and Pathogenesis	187	19.5.1	Etiology, Epidemiology, and Pathogenesis.	190
19.3.2	Patient Presentation.	187	19.5.2	Prophylaxis.	190
19.3.3	Diagnostic Workup	187	19.5.3	Patient Presentation	190
19.3.4	Treatment	188	19.5.4	Diagnostic Workup.	190
19.3.5	Prognosis/ Complications	188	19.5.5	Treatment.	191
19.4	Intradural Infections.	188	19.5.6	Prognosis/Complications. . .	191
19.4.1	Etiology, Epidemiology, and Pathogenesis	188	19.6	Surgical Pearls.	191
19.4.2	Patient Presentation.	189		Common Clinical	
19.4.3	Diagnostic Workup	189		Questions	192
19.4.4	Treatment	189		Answers to Common	
				Clinical Questions	192
				References	192
20.	Primary Bony Spinal Column Tumors	194			
	<i>Mark A. Feger, Quante Singleton, John Clayton Clohisy Jr, and Matthew L. Goodwin</i>				
20.1	Key Points	194	20.6	Surgical Pearls.	199
20.2	Background.	194		Common Clinical	
20.3	Signs, Symptoms, and Physical Examination	196		Question.	200
20.4	Workup and Neuroimaging	197		Answer to Common Clinical	
20.5	Treatment	198		Question.	200
				References	200
21.	Surgical Management of Spinal Metastases	201			
	<i>Esteban Quiceno, Amna Hussein, Michael Galgano, and Ali A. Baaj</i>				
21.1	Key Points	201	21.6	Surgical Pearls.	204
21.2	Background.	201		Common Clinical	
21.3	Signs, Symptoms, and Physical Examination	202		Questions	205
21.4	Workup and Neuroimaging	202		Answers to Common	
21.5	Treatment	204		Clinical Questions	205
				References	205

22.	Intradural Extramedullary and Intramedullary Spinal Tumors				207
	<i>Esteban Quiceno, Amna Hussein, Jose Manuel Orenday-Barraza, and Ali A. Baaj</i>				
22.1	Key Points	207	22.5	Postoperative Care	213
22.2	Indications	207	22.6	Surgical Pearls	214
22.3	Technique	208	22.7	Outcomes	214
22.3.1	Surgical Technique for Intradural Extramedullary Tumors	208		Common Clinical Questions	214
22.3.2	Surgical Technique for Intradural Intramedullary Tumors	211		Answers to Common Clinical Questions	214
22.4	Complications	212		References	215
23.	Cervical and Thoracic Spine Degenerative Disease				216
	<i>Jean-Valery Coumans</i>				
23.1	Key Points	216	23.3.2	Signs, Symptoms, and Physical Examination	219
23.2	Cervical Disk Herniation	216	23.3.3	Workup	220
23.2.1	Background	216	23.3.4	Treatment	221
23.2.2	Signs, Symptoms, and Physical Examination	217	23.3.5	Surgical Pearls	221
23.2.3	Workup	217		Common Clinical Questions	221
23.2.4	Treatment	218		Answers to Common Clinical Questions	222
23.2.5	Surgical Pearls	218		References	222
23.3	Cervical Spondylotic Myelopathy	219			
23.3.1	Background	219			
24.	Degenerative Lumbar Spine Disease				223
	<i>Juan Emmerich</i>				
24.1	Key Points	223	24.3.1	Radicular Pain	224
24.2	Background	224	24.3.2	Neurogenic Claudication	225
24.3	Specific Conditions	224	24.3.3	Axial Back Pain from Intervertebral Disk Disease (without Deformity)	226

24.3.4	Axial Back Pain from Facet Joint Disease	227	Common Clinical Questions	231
24.3.5	Spondylolisthesis	228		
24.3.6	Degenerative Scoliosis and Kyphosis	230	Answers to Common Clinical Questions	232
			References	232
25.	Congenital and Neuromuscular Scoliosis			233
	<i>Michael J. Yang, Steven W. Hwang, and Amer F. Samdani</i>			
25.1	Key Points	233	Common Clinical Questions	238
25.2	Congenital Scoliosis	233		
25.3	Neuromuscular Scoliosis	237	Answers to Common Clinical Questions	239
			References	239
26.	Scheuermann's Kyphosis			241
	<i>Venkat Boddapati and Han Jo Kim</i>			
26.1	Key Points	241	26.6.2 Operative Treatment	245
26.2	Background	242	26.7 Surgical Pearls	247
26.3	Signs, Symptoms, and Physical Examination	242	Common Clinical Questions	247
26.4	Workup	243	Answers to Common Clinical Questions	247
26.5	Neuroimaging	244	References	248
26.6	Treatment	244		
26.6.1	Nonoperative Treatment	244		
27.	Adolescent Idiopathic Scoliosis			249
	<i>Kevin Kwan, Josephine Coury, Yong Shen, and Lawrence G. Lenke</i>			
27.1	Key Points	249	27.5 Radiographic Evaluation	250
27.2	Definition	250	27.6 Skeletal Maturity	253
27.3	Prevalence	250	27.7 Management Overview	253
27.4	Clinical Evaluation	250	27.8 Observation	254

27.9	Bracing	254		Common Clinical Questions.	258
27.10	Physical Therapy	254		Answers to Common Clinical Questions.	259
27.11	Surgical Intervention	255		References	259
27.12	Lenke Classification	255			
27.13	Instrumented Level Selection.	256			
28.	Adult Degenerative Deformity				261
	<i>Hai Le, Wyatt D. Vander Voort, Joseph Wick, and Eric Klineberg</i>				
28.1	Key Points	261	28.6	Treatment	264
28.2	Background	262	28.7	Complications	265
28.3	Signs, Symptoms, and Physical Examination	262		Common Clinical Questions.	265
28.4	Evaluation of Adult Degenerative Deformity	263		Answers to Common Clinical Questions.	265
28.5	Spinopelvic Parameters	264		References	266
29.	Radiographic Parameters of Spinal Deformity				267
	<i>Alexander Aabedi, Vijay Letchuman, Andrew K. Chan, and Praveen V. Mummaneni</i>				
29.1	Key Points	267	29.4	Treatment	270
29.2	Background	268		Common Clinical Questions.	274
29.3	Signs, Symptoms, and Physical Examination	268		Answers to Common Clinical Questions.	274
29.3.1	Neuroimaging	268		References	274
30.	Vascular Pathology of the Spine				277
	<i>Michael D. White, Timothy D. Uschold, and Steve W. Chang</i>				
30.1	Key Points	277		Common Clinical Questions.	284
30.2	Cavernous Malformations	278		Answers to Common Clinical Questions.	285
30.3	Arteriovenous Lesions	279		References	285

31. Spondyloarthropathies	286		
<i>Joshua Vignolles-Jeong, Alexander Keister, Samuel Ammerman, and Andrew J. Grossbach</i>			
31.1 Key Points	286	31.4.1 Background	291
31.2 Ankylosing Spondylitis Seronegative Arthropathy	287	31.4.2 Signs, Symptoms, and Physical Examination	291
31.2.1 Background	287	31.4.3 Workup/Neuroimaging	291
31.2.2 Signs, Symptoms, and Physical Examination	287	31.4.4 Treatment	292
31.2.3 Workup	288	31.4.5 Surgical Pearls	292
31.2.4 Neuroimaging	289	31.5 Ossification of the Posterior Longitudinal Ligament	293
31.2.5 Treatment	289	31.5.1 Background	293
31.2.6 Surgical Pearls	289	31.5.2 Signs, Symptoms, and Physical Examination	294
31.3 Rheumatoid Arthritis	289	31.5.3 Workup/Neuroimaging	294
31.3.1 Background	289	31.5.4 Treatment	294
31.3.2 Signs, Symptoms, and Physical Examination	290	31.5.5 Surgical Pearls	294
31.3.3 Workup	290	Common Clinical Questions	294
31.3.4 Neuroimaging	290	Answers to Common Clinical Questions	296
31.3.5 Treatment	290	References	296
31.3.6 Surgical Pearls	291		
31.4 Diffuse Idiopathic Skeletal Hyperostosis	291		
32. Spinal Emergencies	299		
<i>Mohammad Hassan A. Noureldine and Puya Alikhani</i>			
32.1 Key Points	299	Common Clinical Questions	308
32.2 Spinal Hematomas	300	Answers to Common Clinical Questions	308
32.3 Cauda Equina and Conus Medullaris Syndromes	303	References	308
32.4 Spinal Epidural Abscess	305		

IV: Surgical Techniques

33.	Occipitocervical Fusion				315
	<i>Amna Hussein, Esteban Quiceno, and Ali A. Baaj</i>				
33.1	Key Points	315	33.7	Surgical Pearls	318
33.2	Indications	315		Common Clinical Questions	318
33.3	Technique	316		Answers to Common Clinical Questions	319
33.4	Complications	317		References	319
33.5	Postoperative Care	318			
33.6	Outcomes	318			
34.	Transoral Odontoidectomy				320
	<i>Karan S. Patel, Cameron Kia, Colin B. Harris, and Frank M. Phillips</i>				
34.1	Key Points	320	34.7	Surgical Pearls	325
34.2	Indications	321		Common Clinical Questions	325
34.3	Technique	321		Answers to Common Clinical Questions	327
34.4	Complications	323		References	327
34.5	Postoperative Care	324			
34.6	Outcomes	325			
35.	Endoscopic Endonasal Odontoidectomy				328
	<i>Umberto Tosi, Jeffrey P. Greenfield, and Theodore H. Schwartz</i>				
35.1	Key Points	328	35.7	Surgical Pearls	335
35.2	Indications	329		Common Clinical Questions	335
35.3	Technique	329		Answers to Common Clinical Questions	335
35.4	Complications	332		References	335
35.5	Postoperative Care	334			
35.6	Outcomes	334			

36.	C1–C2 Fixation Techniques	337		
	<i>Timothy Chryssikos, Nitin Agarwal, Alysha Jamieson, and Praveen V. Mummaneni</i>			
36.1	Key Points	337	36.3.3	C1–C2 Wiring Methods 343
36.2	Indications of C1–C2 Fixation	338	36.4	Complications 344
36.3	Preparation for C1–C2 Fixation	339	36.5	Postoperative Care 344
36.3.1	C1–C2 Fixation Constructs Using C1 Lateral Mass Screws with C2 Pars, Pedicle, or Translaminar Screws	339	36.6	Surgical Pearls 344
36.3.2	C1–C2 Transarticular Screws	343		Common Clinical Questions 345
				Answers to Common Clinical Questions 345
				References 345
37.	Odontoid Screw Fixation	347		
	<i>Rajiv Saigal and Dean Chou</i>			
37.1	Key Points	347	37.7	Surgical Pearls 351
37.2	Indications and Contraindications	347		Common Clinical Questions 352
37.3	Technique	348		Answers to Common Clinical Questions 352
37.4	Complications	350		References 352
37.5	Postoperative Care	350		
37.6	Outcomes	351		
38.	Cervical Arthroplasty	353		
	<i>Yazid Maghrabi and Saleh Baesa</i>			
38.1	Key Points	353	38.7	Surgical Pearls 358
38.2	Indications	354		Common Clinical Questions 358
38.3	Technique	354		Answers to Common Clinical Questions 359
38.4	Complications	355		References 359
38.5	Postoperative Care	356		
38.6	Outcomes	357		

39.	Anterior Cervical Diskectomy	361			
	<i>TJ Florence, Ansley Unterberger, and Andrew C. Vivas</i>				
39.1	Key Points	361	39.7	Surgical Pearls	367
39.2	Indications	361		Common Clinical Questions	368
39.3	Technique	361		Answers to Common Clinical Questions	369
39.4	Complications	366		References	369
39.5	Postoperative Care	367			
39.6	Outcomes	367			
40.	Anterior Cervical Corpectomy	371			
	<i>Joshua Chalif, Anran Li, Eric Chalif, and Hasan Zaidi</i>				
40.1	Key Points	371	40.7	Surgical Pearls	380
40.2	Indications	372		Common Clinical Questions	380
40.3	Technique	373		Answers to Common Clinical Questions	381
40.4	Complications	376		References	381
40.5	Postoperative Care	379			
40.6	Outcomes	379			
41.	Cervical Laminectomy with and without Fusion	383			
	<i>Ian David Connolly, Muhamed Hadzipasic, and Ganesh M. Shankar</i>				
41.1	Key Points	383	41.7	Outcomes	389
41.2	Indications	384	41.8	Surgical Pearls	389
41.3	Contraindications	384		Common Clinical Questions	390
41.4	Technique	384		Answers to Common Clinical Questions	390
41.5	Complications	388		References	390
41.6	Postoperative Care	389			

42.	Cervical Laminoplasty	392		
	<i>Aria Jamshidi, Glen R. Manzano, and Allan D. Levi</i>			
42.1	Key Points	392	42.8	Surgical Pearls 399
42.2	Indications	392		Common Clinical Questions 399
42.3	Contraindications	393		Answers to Common Clinical Questions 399
42.4	Technique	393		References 399
42.5	Complications	397		
42.6	Postoperative Care	398		
42.7	Outcomes	398		
43.	Posterior Cervical Foraminotomy	401		
	<i>Rajakumar V. Deshpande, Murali Krishna P., Chaitanya Prabhu K., and Dhiraj Kumar Poonia</i>			
43.1	Key Points	401	43.6.1	Full Endoscopic Posterior Cervical Foraminotomy . . . 406
43.2	Indications and Contraindications	402	43.7	Biportal Endoscopic Posterior Cervical Foraminotomy 407
43.2.1	Indications	402	43.8	Endoscopic Posterior Cervical Foraminotomy—Destandau's Technique . . . 408
43.2.2	Contraindications	402	43.9	Complications of Posterior Cervical Foraminotomy . . . 409
43.3	Technique	402	43.10	Postoperative Care 409
43.3.1	Patient Positioning	402	43.11	Outcomes 410
43.3.2	Preparation and Draping	403	43.12	Surgical Pearls 410
43.3.3	Surgical Techniques	403		Common Clinical Questions 410
43.4	Microsurgical Techniques	403		Answers to Common Clinical Questions 411
43.4.1	Open Microscopic Procedure	403		References 411
43.4.2	Tubular Retractor Procedure	403		
43.5	Foraminotomy Under Microscope	404		
43.6	Endoscopic Techniques	406		

44.	Cervical Open Reduction Techniques: Anterior and Posterior Approaches				413
	<i>Glenn A. Gonzalez, Ahilan Sivaganesan, George M. Ghobrial, and James S. Harrop</i>				
44.1	Key Points	413	44.6	Outcomes	419
44.2	Indications	414	44.7	Surgical Pearls	420
44.3	Technique	414		Common Clinical Questions	420
44.3.1	Anterior Approach	414		Answers to Common Clinical Questions	421
44.3.2	Posterior Approach	417		References	421
44.4	Complications	417			
44.5	Postoperative Care	419			
45.	Surgical Resection of Spinal Vascular Lesions				422
	<i>James J. Zhou, Arnau Benet, Timothy D. Uschold, Alim P. Mitha, and Steve W. Chang</i>				
45.1	Key Points	422	45.7	Surgical Pearls	427
45.2	Indications	423		Common Clinical Questions	428
45.3	Technique	423		Answers to Common Clinical Questions	428
45.4	Complications	425		References	428
45.5	Postoperative Care	426			
45.6	Outcomes	426			
46.	Freehand Thoracic Pedicle Screw Insertion				430
	<i>Kelly Chamberlin, Martin G. Piazza, and Michael Galgano</i>				
46.1	Key Points	430	46.7	Outcomes	436
46.2	Indications	430	46.8	Surgical Pearls	436
46.3	Technique	431		Common Clinical Questions	436
46.4	Freehand Screws for Deformity: Special Considerations	433		Answers to Common Clinical Questions	437
46.5	Complications	435		References	437
46.6	Postoperative Care	435			

47.	Navigation in Spine Surgery	439			
	<i>Salah A. Alakkad and Esteban Quiceno</i>				
47.1	Key Points	439	47.5	Surgical Pearls	441
47.2	Description	439		Common Clinical Questions	442
47.3	Indications and Advantages	440		Answers to Common Clinical Questions	443
47.4	Future of Spinal Navigation	441		References	443
48.	Robotics in Spine Surgery	444			
	<i>Brendan F. Judy, Andrew M. Hersh, and Nicholas Theodore</i>				
48.1	Key Points	444	48.7	Surgical Pearls	449
48.2	Indications	445		Common Clinical Questions	449
48.3	Technique	445		Answers to Common Clinical Questions	450
48.4	Complications	445		References	450
48.5	Postoperative Care	448			
48.6	Outcomes	448			
49.	Posterolateral Thoracic Approaches	452			
	<i>Grace X. Xiong and Christopher M. Bono</i>				
49.1	Key Points	452	49.5	Postoperative Care	457
49.2	Indications	453	49.6	Outcomes	457
49.3	Technique	454	49.7	Surgical Pearls	457
49.3.1	Transpedicular Approach	455		Common Clinical Questions	458
49.3.2	Costotransversectomy . . .	455		Answers to Common Clinical Questions	458
49.3.3	Lateral Extracavitary Approach	456		References	458
49.4	Complications	456			

50.	Minimally Invasive Lateral Retropleural Approach for Thoracic Diskectomy				460
	<i>S. Harrison Farber, James J. Zhou, Nima Alan, and Juan S. Uribe</i>				
50.1	Key Points	460	50.7	Surgical Pearls	464
50.2	Indications	461		Common Clinical Questions	465
50.3	Technique	461		Answers to Common Clinical Questions	466
50.4	Complications	463		References	466
50.5	Postoperative Care	464			
50.6	Outcomes	464			
51.	Lateral Approaches to the Thoracolumbar Spine				467
	<i>C. Rory Goodwin and Jean-Paul Wolinsky</i>				
51.1	Key Points	467	51.7	Surgical Pearls	472
51.2	Indications	467		Common Clinical Questions	473
51.3	Technique	468		Answers to Common Clinical Questions	473
51.4	Complications	471		References	473
51.5	Postoperative Care	471			
51.6	Outcomes	472			
52.	Open and Minimally Invasive Spinal Lumbar Microdiskectomy				474
	<i>Sebastian Hajtovic, Alexandra J. White, Brian Fiani, and Jonathan J. Rasouli</i>				
52.1	Key Points	474	52.6	Outcomes	480
52.2	Indications	475	52.7	Surgical Pearls	480
52.3	Technique	476		Common Clinical Questions	480
52.3.1	Open	476		Answers to Common Clinical Questions	480
52.3.2	Minimally Invasive Technique	477		References	481
52.4	Complications	478			
52.5	Postoperative Care	479			

53.	Lumbar Laminectomy	482		
	<i>Matthew T. Carr, Frank J. Yuk, and Jeremy Steinberger</i>			
53.1	Key Points	482	53.7	Surgical Pearls. 487
53.2	Indications.	482		Common Clinical Questions 488
53.3	Technique	483		Answers to Common Clinical Questions 488
53.4	Complications	486		References 489
53.5	Postoperative Care.	486		
53.6	Outcomes	487		
54.	Endoscopic Lumbar Techniques	490		
	<i>Sananthan Sivakanthan and Christoph Hofstetter</i>			
54.1	Key Points	490	54.7	Surgical Pearls. 494
54.2	Indications.	490		Common Clinical Questions 494
54.3	Surgical Technique.	491		Answers to Common Clinical Questions 495
54.4	Complications	494		
54.5	Postoperative Care.	494		
54.6	Outcomes	494		
55.	Open Transforaminal Lumbar Interbody Fusion	496		
	<i>Jose A. Canseco, Yunsoo Lee, Jeremy C. Heard, and Christopher K. Kepler</i>			
55.1	Key Points	496	55.6	Outcomes 500
55.2	Indications.	496	55.7	Surgical Pearls. 500
55.3	Technique	497		Common Clinical Questions 500
55.3.1	Open Transforaminal Lumbar Interbody Fusion	497		Answers to Common Clinical Questions 501
55.4	Complications	499		References 501
55.5	Postoperative Care.	500		

56.	Minimally Invasive Transforaminal Lumbar Interbody Fusion				503
	<i>Marisa Gandía and Jose Manuel Viñuela-Prieto</i>				
56.1	Key Points	504	56.7	Surgical Pearls	508
56.2	Indications	504		Common Clinical Questions	509
56.3	Technique	505		Answers to Common Clinical Questions	509
56.4	Complications	507		References	510
56.5	Postoperative Care	508			
56.6	Outcomes	508			
57.	Lateral Lumbar Interbody Fusion				512
	<i>Mohamed A.R. Soliman, Asham Khan, and John Pollina</i>				
57.1	Key Points	512	57.7	Complications	520
57.2	Indications	512	57.8	Postoperative Care	521
57.3	Contraindications	513	57.9	Outcomes	521
57.4	Preoperative Planning	513	57.10	Surgical Pearls	521
57.5	Patient Positioning	514		Common Clinical Questions	522
57.5.1	Standard LLIF	514		Answers to Common Clinical Questions	522
57.5.2	Prone Lateral (PL) LLIF	514		References	522
57.5.3	Prone Transpoas (PTP) LLIF	515			
57.6	Technique	516			
58.	Single-Position Lateral Lumbar Interbody Fusion				524
	<i>James J. Zhou, S. Harrison Farber, Nima Alan, and Juan S. Uribe</i>				
58.1	Key points	524	58.7	Surgical Pearls	529
58.2	Indications	524		Common Clinical Questions	529
58.3	Technique	525		Answers to Common Clinical Questions	529
58.4	Complications	527		References	530
58.5	Postoperative Care	528			
58.6	Outcomes	528			

59.	Pedicle Subtraction Osteotomy/Smith-Petersen Osteotomy	531		
	<i>Stephen M. Bergin, Khoi D. Than, Frank La Marca, Paul Park, and Juan M. Valdivia</i>			
59.1	Key Points	531	59.6	Outcomes 535
59.2	Indications	531	59.7	Surgical Pearls 535
59.3	Technique	532		Common Clinical Questions 535
59.3.1	Pedicle Subtraction Osteotomy	532		Answers to Common Clinical Questions 535
59.3.2	Smith-Petersen Osteotomy	532		References 536
59.4	Complications	533		
59.5	Postoperative Care	534		
60.	Vertebral Body Tethering for Scoliosis	537		
	<i>Nuri Demirci, Altug Yucekul, Caglar Yilgor, and Ahmet Alanay</i>			
60.1	Key Points	537	60.7	Surgical Pearls 540
60.2	Indications	538		Common Clinical Questions 542
60.3	Surgical Technique	539		Answers to Common Clinical Questions 542
60.4	Complications	539		References 542
60.5	Postoperative Care	540		
60.6	Outcomes	540		
61.	Percutaneous Pedicle Screw Placement	544		
	<i>Michael Y. Wang</i>			
61.1	Key Points	544	61.6	Surgical Pearls 548
61.2	Indications	544		Common Clinical Questions 549
61.3	Technique	545		Answers to Common Clinical Questions 549
61.4	Complications	547		References 550
61.5	Postoperative Care	548		

62.	Awake Spine Surgery	551			
	<i>David A.W. Sykes, Jeff Gadsden, Dhanesh K. Gupta, and Muhammad M. Abd-El-Barr</i>				
62.1	Key Points	551	62.7	Surgical Pearls	554
62.2	Indications	551		Common Clinical Questions	554
62.3	Technique	552		Answers to Common Clinical Questions	554
62.4	Complications	553		References	555
62.5	Postoperative Care	553			
62.6	Outcomes	553			
63.	Anterior Lumbar Interbody Fusion	556			
	<i>Cristiano Magalhães Menezes and Marlus Sérgio Borges Salomão Junior</i>				
63.1	Advantages	556	63.7	Outcomes	560
63.2	Indications	557	63.8	Surgical Pearls	560
63.3	Preoperative Imaging Considerations	557		Common Clinical Questions	561
63.4	Technique	557		Answers to Common Clinical Questions	561
63.5	Complications	558		References	562
63.6	Patient-Specific Considerations	559			
64.	Sacroiliac Joint Fusion	563			
	<i>Kalaventhan Pathinathan, Ashish D. Diwan, Joseph Maalouly, and Prashanth J. Rao</i>				
64.1	Key Points	563	64.6	Outcomes	573
64.2	Indications	564	64.7	Surgical Pearls	573
64.3	Techniques	564		Common Clinical Questions	576
64.4	Complications	570		Answers to Common Clinical Questions	576
64.5	Postoperative Care	571		References	577
