 – caries, superficial, chronic 8  
 – dentin caries 4  
 – pulp capping, direct 52  
 Secondary infection, failure, endodontic 168  
 S file 110  
*Selenomonas sputigena* 12  
 Sensitivity test  
 – crown infraction 46  
 – electric 34  
 – thermal 34  
 Sensitivity testing 34  
 – persistent pain 42  
 – results, false 42  
 Shape memory 132  
 Shaper 114  
 Shaping 116  
 Shaping file 146  
 Silver point, removal of 198  
 Smear layer 148  
 Sodium hypochlorite 154, 168  
 Soft-Core 184  
 Soft tissue swelling 190  
 Solution, physiologic saline 154  
 Sonic-Air attachments 114  
 Sonic/ultrasonic devices 114  
 Spreader 176, 180

Staining  
 – caries detector 6  
 – cavity 98  
 – retreatment 210  
 Steel files, flexible 110  
 Step-back technique 118  
 Step-down technique 120  
*Streptococcus sanguis* 152  
 Super-EBA cement 210  
 Superelasticity 132  
 Surgery, endodontic  
 – – apicoectomy 206  
 – – cyst 74  
 – – flap creation 208  
 Surgical (operation) microscope 102, 206  
 Suture material 208  
 Swelling  
 – diffuse 68  
 – fluctuant 68  
 – localized 68  
 SX files 146

**T**

Tactility, reduced 130  
 T helper cells, periodontitis, apical 26  
 TCM-Endo 150  
 Temporary, immediate 92  
 Thermafil 184  
 Thermafil-plus point 184  
 Thermo-Cut drill 184  
 Thermocatalytic bleaching 212  
 Thymol 158  
 Tissue, destruction 16  
 Tissue, necrosis 14  
 Tissue debris, necrotic 66  
 Tissue necrosis  
 – calcium hydroxide-induced 52  
 – initial 10  
 Titanium aluminum 132  
 T lymphocyte, cyst 28  
 Tooth  
 – correct 42  
 – left open 68  
 – – complete 60  
 – – partial 60  
 Tooth, anterior  
 – access cavity 88

– local anesthesia 80  
 – rubber dam application 84  
 Tooth cleaning, professional 212  
 Tooth crown, discolored, bleaching 212  
 Tooth hard structure, conditioning 6  
 Tooth injury 48  
 Tooth length, determination 104  
 Tooth root perforation 202  
 Total bonding (composite resin restoration) 52  
 Total treatment, antibacterial 172  
 Toxavit, penetration 32  
 Treatment  
 – one-appointment 172  
 – two-appointment 172  
 Treatment planning 78  
 – classification of phases 78  
 Treatment success 220  
 Trepanation 86  
 – apical 70  
 – Endo-Access bur 88  
 – expansive 60  
 – periodontitis, apical 68  
 Trepanation opening  
 – build-up filling 92  
 – closure, temporary 174  
 Triangular flap 208  
 TriAutoZX 108  
 Trioxide, mineral (MTA)  
 – – pulp capping, direct 52  
 – – root perforation 202

**U**

Ulcer 30  
 Ultrasonic files  
 – root canal instrumentation 114  
 – root canal rinsing 156  
 Ultrasonic handpiece 206  
 Ultrasonic rinsing 156

## V

- Vital amputation
  - deciduous dentition 58
  - emergency treatment 54
- Vital extirpation 10

## W

- Walking bleach method 212
- Walking bleach paste 212
- Weiser drainage 60
- Wing technique (rubber dam)
  - 84
- Working length
  - determination of 104
  - endpoint 104
  - loss of 130
- Wolinella recta* 12

## Z

- Zinc oxide–eugenol (ZnOE) 52
- Zinc oxide–eugenol cement
  - 58
- Zirconium oxide 218
- Zone, carious 4
