1	Introduction and general anatomy	21		
	<i>H.-G. Liebich, G. Forstenpointner and H. E. König</i>			
1.1	History of veterinary anatomy	21	1.6	General anatomy of the nervous system (systema nervosum)
	<i>G. Forstenpointner</i>			<i>H.-G. Liebich and H. E. König</i>
1.2	Directional terms and planes of the animal body ...	25	1.6.1	Functions of the nervous system
	<i>H.-G. Liebich and H. E. König</i>			59
1.3	Division of the animal body in organs and organ systems	25	1.6.2	Architecture and structure of the nervous system .
	<i>H.-G. Liebich and H. E. König</i>			59
1.4	Locomotor apparatus (apparatus locomotorius) ...	27	1.6.3	Nerve tissue (textus nervosus)
	<i>H.-G. Liebich and H. E. König</i>			60
1.4.1	Skeletal system (systema skeletale)	27		Neurons
	Osteology (osteologia)	27		60
	Arthrology (arthrologia)	37	1.6.4	Central nervous system (systema nervosum centrale, CNS)
1.4.2	Muscular system (systema musculare)	43		61
				Grey matter (substantia grisea)
1.5	General anatomy of angiology (angiologia)	52		61
	<i>H.-G. Liebich and H. E. König</i>			White matter (substantia alba)
1.5.1	Organisation of the cardiovascular system.	52	1.6.5	Peripheral nervous system (systema nervosum periphericum, PNS)
	Heart (cor)	52		62
	Pulmonary and systemic circulation	52		Nerves (nervi, neurons)
	Portal circulation	53		62
	Peripheral circulation	53		Ganglions (ganglia)
1.5.2	Vessels (vasa)	54		63
	Structure of the blood vessels (vasa sanguinea)	54		Somatic (voluntary) nervous system.
1.5.3	Lymphatic system (systema lymphaticum)	57		63
	Lymphatic organs	57	1.6.6	Vegetative (autonomic) nervous system
	Functions of the lymphatic system	57		63
	Architecture of the lymphatic vessels (vasa lymphatica)	57	1.6.7	Nerve transmission of information
				65
			1.6.7	Synapses
				65
			1.7	Barriers in the nervous system
				65
2	Axial skeleton (skeleton axiale)	73	1.7.1	General anatomy of the viscera
	<i>H.-G. Liebich and H. E. König</i>			<i>H.-G. Liebich and H. E. König</i>
2.1	Overview of the skull	73	1.7.1	Visceral mucosa
2.2	Overview of the vertebral column or spine	73		66
2.3	Overview of the thorax	74		Epithelium
2.4	Skeleton of the head	74		66
2.4.1	Skull, neural part (cranium, neurocranium)	74		Connective tissue layer of the epithelium
	Occipital bone (os occipitale)	74		67
	Sphenoid bone (os sphenoidale)	78		Muscle layer of the epithelium
	Temporal bone (os temporale)	79		68
	Frontal bone (os frontale)	81	1.7.2	Visceral connective tissue
	Parietal bone (os parietale)	81		68
	Interparietal bone (os interparietale)	82		Visceral motility
	Ethmoid bone (os ethmoidale)	82	1.7.3	68
			1.7.4	Functions of the viscera
				68
			2.4.2	Body cavities and their serous lining
				84
				Nasal bone (os nasale)
				84
				Lacrima bone (os lacrimale)
				85
				Zygomatic bone (os zygomaticum)
				85
				Maxilla
				87
				Incisive bone (os incisivum)
				88
				Palatine bone (os palatinum)
				89
				Vomer
				89
				Pterygoid bone (os pterygoideum)
				90
				Mandible (mandibula)
				90
				Hyoid bone, hyoid apparatus (os hyoideum, apparatus hyoideus)
				92
				Paranasal sinuses (sinus paranasales)
				93

2.5	The skull as a whole	95	2.7	Thoracic skeleton (skeleton thoracis)	125
2.5.1	The skull of carnivores	95	2.7.1	Ribs (costae)	125
	Hyoid bone (os hyoideum)	99	2.7.2	Sternum	128
2.5.2	Cavities of the skull of carnivores	99	2.8	Joints of the skull and trunk (suturae capitis, articulationes columnae vertebralis et thoracis)	128
	Cranial cavity (cavum cranii)	99	2.8.1	Joints of the skull (synchondroses cranii)	128
	Nasal cavity (cavum nasi)	100	2.8.2	Joints of the vertebral column, the thorax and the skull (articulationes columnae vertebralis, thoracis et cranii)	129
	Paranasal sinuses (sinus paranasales)	101	2.8.3	Intervertebral articulations (articulationes columnae vertebralis)	131
2.5.3	The skull of the horse	101		Ligaments of the vertebral column	133
	Hyoid bone (os hyoideum)	104	2.8.4	Articulations of the ribs with the vertebral column (articulationes costovertebrales)	135
2.5.4	Cavities of the equine skull	104	2.8.5	Joints of the thoracic wall (articulationes thoracis)	135
	Cranial cavity (cavum cranii)	104	2.9	The vertebral column as a whole	136
	Nasal cavity (cavum nasi)	108			
	Paranasal sinuses (sinus paranasales)	108			
2.6	Vertebral column or spine (columna vertebralis)	109			
2.6.1	Cervical vertebrae (vertebrae cervicales)	110			
2.6.2	Thoracic vertebrae (vertebrae thoracicae)	112			
2.6.3	Lumbar vertebrae (vertebrae lumbales)	120			
2.6.4	Sacral vertebrae (vertebrae sacrales)	122			
2.6.5	Caudal or coccygeal vertebrae (vertebrae caudales)	125			
3	Fasciae and muscles of the head, neck and trunk	137			
	<i>H.-G. Liebich, J. Maierl and H. E. König</i>				
3.1	Fasciae	137	3.3.4	Extraorbital muscles of the eyelids (musculi extraorbitales)	143
3.1.1	Superficial fasciae of the head, neck and trunk	137	3.3.5	Muscles of the external ear (musculi auriculares) ..	143
3.1.2	Deep fasciae of the head, neck and trunk	137	3.3.6	Mandibular muscles	145
3.2	Cutaneous muscles (musculi cutanei)	138		Muscles of mastication	145
3.2.1	Cutaneous muscles of the head (musculi cutanei capitis)	138		Superficial muscles of the mandibular space	146
3.2.2	Cutaneous muscles of the neck (musculi cutanei colli)	138	3.3.7	Specific muscles of the head	147
3.2.3	Cutaneous muscles of the trunk (musculi cutanei trunci)	138	3.4	Muscles of the trunk (musculi trunci)	149
3.3	Muscles of the head (musculi capitis)	139	3.4.1	Muscles of the neck (musculi colli)	149
3.3.1	Facial muscles (musculi faciales)	139	3.4.2	Muscles of the back (musculi dorsi)	154
3.3.2	Muscles of the lips and cheeks (musculi labiorum et buccarum)	139		Long muscles of the neck and back	155
3.3.3	Muscles of the nose (musculi nasi)	143		Short muscles of the neck and back	159
			3.4.3	Muscles of the thoracic wall (musculi thoracis)	159
				Respiratory muscles	159
			3.4.4	Muscles of the abdominal wall (musculi abdominis)	163
				Rectus sheath (vagina m. recti abdominis)	165
				Inguinal canal (canalis inguinalis)	165
			3.4.5	Muscles of the tail (musculi caudae)	167
4	Forelimbs or thoracic limbs (membra thoracica)	171			
	<i>H.-G. Liebich, J. Maierl and H. E. König</i>				
4.1	Skeleton of the thoracic limb (ossa membri thoracici)	171	4.1.4	Skeleton of the manus (skeleton manus)	181
4.1.1	Pectoral girdle (cingulum membri thoracici)	171		Carpal bones (ossa carpi)	182
	Shoulder blade (scapula)	171		Metacarpal bones (ossa metacarpalia)	183
4.1.2	Skeleton of the arm (brachium)	171	4.1.5	Skeleton of the manus (forepaw) in carnivores	184
4.1.3	Skeleton of the forearm (skeleton antebrachii)	177		Carpal bones (ossa carpi)	184
	Radius	178		Metacarpal bones (ossa metacarpalia)	184
	Ulna	181		Digital skeleton (ossa digitorum manus)	184

4.1.6	Skeleton of the manus in the horse	184	4.2.6	Phalangeal joints	198
	Carpal bones (ossa carpi)	184		Phalangeal joints of the carnivores	199
	Metacarpal bones (ossa metacarpalia)	186		Phalangeal joints of the ruminants	200
	Digital skeleton (ossa digitorum manus)	186		Phalangeal joints of the horse	201
4.2	Joints of the thoracic limb (articulationes membri thoracici)	190	4.3	Muscles of the thoracic limb (musculi membri thoracici)	211
4.2.1	Articulations of the thoracic limb to the trunk	190	4.3.1	Deep fasciae of the thoracic limb	211
4.2.2	Shoulder or humeral joint (articulatio humeri)	190	4.3.2	Girdle or extrinsic musculature of the thoracic limb	211
4.2.3	Elbow joint (articulatio cubiti)	191		Superficial layer of the extrinsic musculature of the thoracic limb	211
	Radioulnar joints (articulatio radioulnaris proximalis et articulatio radioulnaris distalis)	193		Deep layer of the extrinsic musculature of the thoracic limb	213
4.2.4	Articulations of the manus (articulationes manus)	195	4.3.3	Intrinsic musculature of the thoracic limb	217
	Carpal joints (articulationes carpeae)	195		Muscles of the shoulder joint	218
4.2.5	Intermetacarpal joints (articulationes intermetacarpeae)	198		Muscles of the elbow joint	222
				Muscles of the radioulnar joints	223
				Muscles of the carpal joint	223
				Muscles of the digits	225
5	Hindlimbs or pelvic limbs (membra pelvina)	243			
	<i>H.-G. Liebich, H. E. König and J. Maierl</i>				
5.1	Skeleton of the pelvic limb (ossa membri pelvini)	243	5.2.3	Stifle joint (articulatio genus)	268
5.1.1	Pelvic girdle (cingulum membri pelvini)	243		Femorotibial joint (articulatio femorotibialis)	268
	Ilium (os ilium)	243		Femoropatellar joint (articulatio femoropatellaris)	269
	Pubis (os pubis)	243	5.2.4	Tibiofibular joints	274
	Ischium (os ischii)	247	5.2.5	Pedal joints (articulationes pedis)	276
	Acetabulum	247		Tarsal joint or hock (articulatio tarsi)	276
	Pelvis	248		Metatarsal and phalangeal joints	279
5.1.2	Pelvic cavity	251	5.3	Muscles of the pelvic limb (musculi membri pelvini)	280
5.1.3	Skeleton of the thigh (skeleton femoris)	252	5.3.1	Fasciae of the pelvis and the pelvic limb	280
5.1.4	Kneecap (patella)	256	5.3.2	Girdle or extrinsic musculature of the pelvic limb	280
5.1.5	Skeleton of the leg (skeleton cruris)	256		Intrinsic musculature of the pelvic limb	281
	Tibia	258		Rump muscles	282
	Fibula	259		Caudal muscles of the thigh	287
5.1.6	Skeleton of the hindfoot (skeleton pedis)	259		Medial muscles of the thigh	290
	Tarsal bones (ossa tarsi)	259		Inner pelvic muscles	292
	Metatarsal and digital skeleton (ossa metatarsalia et ossa digitorum pedis)	263		Muscles of the stifle	293
5.2	Joints of the pelvic limb (articulationes membri pelvini)	265	5.3.4	Muscles of the crus	294
5.2.1	Sacroiliac joint (articulatio sacroiliaca)	265		Cranio-lateral muscles of the crus	298
5.2.2	Coxofemoral or hip joint (articulatio coxae)	267	5.3.5	Short digital muscles	303

6	Statics and dynamics	309			
	<i>J. Maierl, G. Weissengruber, Chr. Peham and H. E. König</i>				
6.1	Architecture of the trunk	309	6.3	Pelvic limb	311
6.2	Thoracic limb	309	6.4	Gaits	313
7	Body cavities	315			
	<i>H. E. König, W. Pérez and H.-G. Liebich</i>				
7.1	Positional stability of the organs in the body cavities	315	7.1.2	Abdominal and pelvic cavity (cavum abdominalis et pelvis)	319
7.1.1	Thoracic cavity (cavum thoracis)	315		Peritoneal cavity (cavum peritonei)	321
	Mediastinum (mediastinum)	316		Pelvic cavity (cavum pelvis)	321
8	Digestive system (apparatus digestorius)	327			
	<i>H. E. König, P. Sótonyi, H. Schöpfer and H.-G. Liebich</i>				
8.1	Mouth and pharynx	327	8.3	Intestine	370
8.1.1	Oral cavity (cavum oris)	327	8.3.1	Structure of the intestinal wall	371
8.1.2	Palate (palatum)	328	8.3.2	Innervation of the intestine	372
8.1.3	Tongue (lingua, glossa)	329	8.3.3	Blood supply of the intestine	372
8.1.4	Sublingual floor of the oral cavity	331	8.3.4	Small intestine (intestinum tenue)	373
8.1.5	Salivary glands (glandulae salivariae)	333		Duodenum	374
	Parotid salivary gland (glandula parotis)	334		Jejunum	375
	Mandibular salivary gland (glandula mandibularis)	334		Ileum	378
	Sublingual salivary glands (glandulae sublinguales)	335	8.3.5	Large intestine (intestinum crassum)	378
8.1.6	Masticatory apparatus	335		Caecum	378
	Teeth (dentes)	335		Colon	380
	Temporomandibular joint (articulatio temporomandibularis) ..	345		Rectum	383
	Muscles of mastication	347		Anal canal and adjacent structures	383
8.1.7	Pharynx (cavum pharyngis)	347	8.4	Glands associated with the alimentary canal	384
	Deglutition (swallowing)	348	8.4.1	Liver (hepar)	384
	Lymphatic structures of the pharynx (tonsils)	349		Weight	384
8.1.8	Muscles of the hyoid apparatus	349		Form, position and species-specific variations of the liver	384
	Upper muscles of the hyoid apparatus	349		Structure of the liver	385
	Lower muscles of the hyoid apparatus	351		Blood supply	388
8.2	Cranial part of the alimentary canal (oesophagus and stomach)	351		Innervation	389
8.2.1	Oesophagus	351		Lymphatics	389
	Structure of the oesophagus	352		Ligaments	389
8.2.2	Stomach (gaster, ventriculus)	353	8.4.2	Gallbladder (vesica fellea)	391
	Simple stomach	353	8.4.3	Pancreas	391
	Complex stomach	360		Innervation	393
				Lymphatics	393

9	Respiratory system (apparatus respiratorius)	397			
	<i>H. E. König and H.-G. Liebich</i>				
9.1	Functions of the respiratory system	397	9.3	Lower respiratory tract	405
9.2	Upper respiratory tract	398	9.3.1	Larynx	405
9.2.1	Nose (rhin, nasus)	398		Cartilages of the larynx (cartilagine laryngis)	407
	Apex of the nose	399		Laryngeal cavity (cavum laryngis)	408
	Nasal cartilages (cartilagine nasi)	399		Articulations and ligaments of the larynx	408
	Nasal vestibule (vestibulum nasi)	402		Muscles of the larynx	409
9.2.2	Nasal cavities (cava nasi)	402		Functions of the larynx	409
	Nasal conchae (conchae nasales)	402		Blood supply and innervation	410
	Nasal meatuses (meatus nasi)	403	9.3.2	Trachea (trachea)	411
9.2.3	Paranasal sinuses (sinus paranasales)	404	9.3.3	Lung (pulmo)	412
				Structure of the lung	412
				Blood supply	416
				Lymphatics	417
				Innervation	417
10	Urinary system (organa urinaria)	419			
	<i>H. E. König, J. Maierl and H.-G. Liebich</i>				
10.1	Kidney (nephros, ren)	419	10.3	Ureter (ureter)	425
10.1.1	Location of the kidneys	419	10.3.1	Blood supply	426
10.1.2	Shape of the kidneys	421	10.3.2	Lymphatics	426
10.1.3	Structure of the kidneys	421	10.3.3	Innervation	426
10.1.4	Functional units of the kidneys	421	10.4	Urinary bladder (vesica urinaria)	429
10.1.5	Blood supply	422	10.4.1	Blood supply	429
10.1.6	Lymphatics	424	10.4.2	Lymphatics	430
10.1.7	Innervation	424	10.4.3	Innervation	430
10.2	Renal pelvis (pelvis renalis)	425	10.5	Urethra (urethra)	430
11	Male genital organs (organa genitalia masculina)	433			
	<i>H. E. König and H.-G. Liebich</i>				
11.1	Testis (orchis)	433	11.6	Urethra	439
11.1.1	Structure of the testis	433	11.7	Accessory genital glands (glandulae genitales accessoriae)	439
11.2	Epididymis	435	11.7.1	Vesicular gland (glandula vesicularis)	441
11.3	Deferent duct (ductus deferens)	436	11.7.2	Prostate gland (prostata)	441
11.4	Investments of the testis	436	11.7.3	Bulbourethral gland (glandula bulbourethralis)	441
11.4.1	Vaginal process (processus vaginalis) and spermatic cord (funiculus spermaticus)	438	11.8	Penis	443
11.4.2	Position of the scrotum	438	11.8.1	Prepuce (preputium)	446
11.5	Blood supply, lymphatic drainage and innervation of the testis and its investments	438	11.8.2	Muscles of the penis	447
			11.8.3	Blood supply, lymphatic drainage and innervation of the urethra and the penis	448
			11.8.4	Erection and ejaculation	448

12	Female genital organs (organa genitalia feminina)	449		
	<i>H. E. König and H.-G. Liebich</i>			
12.1	Ovary (ovarium)	449	12.4	Vagina
				463
12.1.1	Position, form and size of the ovaries.....	449	12.4.1	Vestibule of the vagina (vestibulum vaginae)
12.1.2	Structure of the ovaries	451		464
	Ovarian follicles.....	451	12.5	Vulva
	Corpus luteum	452		465
12.2	Uterine tube (tuba uterina)	459	12.6	Ligaments (adnexa)
				467
12.2.1	Mesovarium, mesosalpinx and ovarian bursa	459	12.7	Muscles of the female genital organs
				469
12.3	Uterus (metra, hystera)	459	12.8	Blood supply, lymphatic drainage and innervation
				469
12.3.1	Structure of the uterine wall.....	460		
13	Organs of the cardiovascular system (systema cardiovasculare)	471		
	<i>H. E. König, J. Ruberte and H.-G. Liebich</i>			
13.1	Heart (cor)	471	13.2	Vessels (vasa)
				482
13.1.1	Pericardium	471	13.2.1	Arteries of the pulmonary circulation
13.1.2	Position and size of the heart	472		483
13.1.3	Shape and surface topography of the heart	473	13.2.2	Arteries of the systemic circulation.....
13.1.4	Compartments of the heart.....	473		483
	Atria of the heart (atria cordis)	474		Cranial branches of the aortic arch
	Ventricles of the heart (ventriculi cordis).....	474		483
13.1.5	Structure of the cardiac wall.....	476		Thoracic aorta and abdominal aorta
13.1.6	Blood supply	477		488
13.1.7	Conducting system of the heart.....	480	13.2.3	Veins (venae).....
13.1.8	Innervation.....	481		491
13.1.9	Lymphatics.....	481		Cranial vena cava (vena cava cranialis) and its tributaries
13.1.10	Functions of the heart.....	481		493
				Veins of the head and neck
				493
				Azygos vein (vena azygos).....
				495
				Veins of the thoracic limb
				495
				Veins of the pelvic limb.....
				496
				Caudal vena cava (vena cava caudalis).....
				496
				Portal vein (vena portae).....
				496
				Arteries and veins of the digit
				497
14	Immune system and lymphatic organs (organa lymphopoetica)	501		
	<i>H. E. König, P. Paulsen and H.-G. Liebich</i>			
14.1	Lymph vessels (vasa lymphatica)	501	14.2.5	Lymph nodes of the abdomen
				507
14.2	Lymph nodes (lymphonodi, nodi lymphatici)	501		Lumbar lymph centre
				507
14.2.1	Lymph nodes of the head.....	504		Coeliac lymph centre.....
	Parotid lymph centre.....	504		507
	Mandibular lymph centre	504		Cranial mesenteric lymph centre.....
	Retropharyngeal lymph centre	504		508
14.2.2	Lymph nodes of the neck.....	504		Caudal mesenteric lymph centre.....
	Superficial cervical lymph centre.....	504		508
	Deep cervical lymph centre.....	505	14.2.6	Lymph nodes of the pelvic cavity and the pelvic limb
14.2.3	Lymph nodes of the thoracic limb.....	505		508
	Axillary lymph centre	505		Iliosacral lymph centre
14.2.4	Lymph nodes of the thorax	505		508
	Dorsal thoracic lymph centre	505		Iliofemoral lymph centre
	Ventral thoracic lymph centre.....	506		508
	Mediastinal lymph centre	506		Inguinofemoral lymph centre (lymphocentrum inguinofemorale)
	Bronchial lymph centre	506		509
				Ischial lymph centre (lymphocentrum ischiadicum).....
				509
				Popliteal lymph centre (lymphocentrum popliteum).....
				509
			14.3	Lymph-collecting ducts
				509

14.4	Thymus (thymus)	510	14.5	Spleen (lien, splen)	512
14.4.1	Function of the thymus	510	14.5.1	Function of the spleen	512
14.4.2	Position and form of the thymus.....	511	14.5.2	Position and form of the spleen.....	512
			14.5.3	Blood supply, lymphatics and innervation.....	514
15	Nervous system (systema nervosum)	515			
	<i>H. E. König, Chr. Mülling, J. Seeger and H.-G. Liebich</i>				
15.1	Central nervous system (systema nervosum centrale)	515	15.2.2	Cranial nerves (nervi craniales)	548
15.1.1	Spinal cord (medulla spinalis)	515		Olfactory nerve (I) (nervus olfactorius)	549
	Shape and position of the spinal cord.....	515		Optic nerve (II) (fasciculus opticus).....	549
	Structure of the spinal cord	517		Oculomotor nerve (III) (nervus oculomotorius).....	549
	Reflex arcs of the spinal cord	519		Trochlear nerve (IV) (nervus trochlearis)	549
15.1.2	Brain (encephalon)	520		Trigeminal nerve (V) (nervus trigeminus)	549
	Rhombencephalon.....	520		Abducent nerve (VI) (nervus abducens)	554
	Mesencephalon	523		Facial nerve (VII) (nervus facialis)	554
	Prosencephalon	524		Vestibulocochlear nerve (VIII) (nervus vestibulocochlearis).....	556
15.1.3	Pathways of the central nervous system	530		Glossopharyngeal nerve (IX) (nervus glossopharyngeus)	557
	Ascending pathways.....	530		Vagus nerve (X) (nervus vagus)	557
	Descending pathways.....	535		Accessory nerve (XI) (nervus accessorius)	559
15.1.4	Central autonomic nervous system	537	15.2.3	Spinal nerves (nervi spinales)	562
	Visceral pathways.....	538		Cervical nerves (nervi cervicales)	562
15.1.5	Meninges of the central nervous system	539		Brachial plexus (plexus brachialis) and	
	Spinal dura mater (dura mater spinalis)	539		nerves of the thoracic limb.....	562
	Cranial dura mater (dura mater encephali).....	540		Lumbar nerves (nervi lumbales)	568
	Arachnoid membrane (arachnoidea)	540		Sacral nerves (nervi sacrales)	574
	Cerebral and spinal pia mater (pia mater encephali et spinalis).....	540		Lumbosacral plexus (plexus lumbosacralis).....	574
15.1.6	Ventricles and cerebrospinal fluid	541	15.3	Peripheral autonomic nervous system (systema nervosum autonomicum)	580
15.1.7	Blood vessels of the central nervous system	541			
	Blood vessels of the spinal cord	541	15.3.1	Structure of the autonomic nervous system	581
	Blood vessels of the brain.....	545	15.3.2	Sympathetic system	581
				Sympathetic trunk (truncus sympathicus)	582
