Foreword of Previous Edition	ix
In Memoriam	x
Preface	xi
Contributors	xii
1. Ear	1
1.1 Applied Anatomy and Physiology	1
1.1.1 Embryology	1
1.1.2 Basic Anatomy	1
1.1.3 Physiology and Pathophysiology of Hearing and Inner	15
1.2 Methods of Investigation	21
1.2.1 Inspection, Palpation, Otoscopy	21
1.2.2 Diagnostic Imaging	25
1.2.3 Functional Assessment of the Eustachian Tube	27
1.2.4 Hearing Investigations	27
1.2.5 Vestibular Function Tests	42
1.2.6 Investigation of the Facial Nerve	51
1.3 Clinical Aspects of Diseases of the External Ear	52
1.3.1 Congenital Anomalies	52
1.3.2 Inflammations of the External Ear	54
1.3.3 Otomycosis and Eczema	58
1.3.4 Trauma	59
1.3.5 Wax and Foreign Bodies	61
1.3.6 Tumors	62
1.4 Clinical Aspects of Diseases of the Middle and Inner Ear	65
1.4.1 Disorders of Ventilation and Drainage of the Middle Ear	65
1.4.2 Nonspecific Inflammation of the Middle Ear and Mastoid	68
1.4.3 Specific Types of Inflammation of the Middle Ear and Mastoid	72
1.4.4 Otogenic Infective Complications	84
1.4.5 Specific Diseases of the Middle Ear and Mastoid Process	89
1.4.6 Noninflammatory Diseases of the Labyrinthine Capsule	90
1.4.7 Trauma of the Middle and Inner Ear	92
1.4.8 Tumors and Lesions of the Lateral Skull Base: Middle and Inner Ear, Vestibulocochlear Nerve, Facial Nerve, and Petrous Apex	99
1.4.9 Congenital Anomalies of the Middle and Inner Ear	106
1.5 Clinical Aspects of Cochleovestibular Disorders	107
1.5.1 Toxic Damage to the Hearing and Balance Apparatus	107
1.5.2 Inflammatory Lesions of the Hearing and Balance Apparatus	108
1.5.3 Immunologic Diseases of the Inner Ear .	109
1.5.4 Trauma	109
1.5.5 Vestibular Disorders	109
1.5.6 Sensorineural Hearing Disorders	116
1.6 Clinical Aspects of Central Hearing Disorders	119
1.7 Rehabilitation of Hearing Disorders with Hearing Aids	121
1.8 Pediatric Hearing Disorders (Pediatric Audiology)	124
1.9 Clinical Aspects of Disorders of the Facial Nerve	128
1.10 Synopsis of Ear Symptoms	131
2. Nose, Nasal Sinuses, and Face	133
2.1 Applied Anatomy and Physiology ...	133
2.1.1 Basic Anatomy	133

2.1.2	Basic Physiology and Pathophysiology ..	140	2.3.2	Types of Lesion.	158
2.2	Methods of Examining the Nose, Paranasal Sinuses, and Face	146	2.3.3	Basics of Topical Dermatologic Therapy .	160
2.2.1	External Inspection and Palpation	146	2.4	Clinical Aspects of Diseases of the Nose, Sinuses, and Face	162
2.2.2	Anterior Rhinoscopy	146	2.4.1	Inflammatory Diseases of the Nose and Paranasal Sinuses	162
2.2.3	Posterior Rhinoscopy	148	2.4.2	Epistaxis	212
2.2.4	Nasal Endoscopy	149	2.4.3	Diseases of the Septum	221
2.2.5	Assessment of Nasal Patency	152	2.4.4	Trauma to the Nose, Paranasal Sinuses, and Facial Skeleton	224
2.2.6	Olfactometry	153	2.4.5	Congenital Anomalies and Deformities of the Nose	234
2.2.7	Diagnostic Imaging of the Nose and Sinuses	155	2.4.6	Basic Plastic Reconstruction Procedures in the Head and Neck	240
2.2.8	Lavage of the Sinuses	156	2.4.7	Tumors of the Nose and Sinuses	245
2.2.9	Specific Diagnostic Methods	157			
2.3	Dermatologic Principles for the Otolaryngologist	158			
2.3.1	Skin Type	158			
3.	Mouth and Pharynx	254			
3.1	Applied Anatomy and Physiology ..	254	3.3.1	Hyperplasia of the Lymphoepithelial Organs	268
3.1.1	Basic Anatomy	254	3.3.2	Dysphagia	271
3.1.2	Physiologic and Pathophysiologic Principles	260	3.3.3	Inflammatory Diseases	271
3.2	Methods of Investigation	264	3.3.4	Basic Conservative Treatment of the Mucosa	305
3.2.1	Inspection, Palpation, and Examination .	264	3.3.5	Trauma in the Mouth and Pharynx	305
3.2.2	Endoscopy	266	3.3.6	Neurogenic Disorders	306
3.2.3	Imaging Studies	266	3.3.7	Pharyngeal Pouch	307
3.2.4	Examination of the Saliva	267	3.3.8	Anomalies of the Mouth and Pharynx ..	308
3.2.5	Gustometry	267	3.3.9	Tumors of the Mouth and Pharynx	310
3.2.6	Specific Diagnostic Procedures	268	3.3.10	Obstructive Sleep-Related Breathing Disorders	321
3.3	Clinical Aspects of Diseases of the Mouth and Pharynx	268			
4.	Larynx and Hypopharynx	325			
4.1	Larynx—Applied Anatomy and Physiology	325	4.2.6	Other Special Techniques	333
4.1.1	Basic Anatomy and Physiology	325	4.3	Clinical Aspects	333
4.2	Methods of Examination	329	4.3.1	Congenital Anomalies	333
4.2.1	Inspection	329	4.3.2	Organic Functional Disorders	335
4.2.2	Palpation	330	4.3.3	Trauma	341
4.2.3	Laryngoscopy	330	4.3.4	Inflammation	346
4.2.4	Diagnostic Imaging	333	4.3.5	Tumors	351
4.2.5	Stroboscopy	333	4.4	Hypopharynx	361
5.	Voice, Speech, and Language	364			
5.1	Voice	364	5.1.2	Voice Diagnosis	365
5.1.1	Voice Production	364	5.1.3	Regulatory Voice Disorders	368

5.2 Speech Sound and Fluency Disorders	370	5.3 Language	372
6. Tracheobronchial Tree	378		
6.1 Applied Anatomy and Physiology ...	378	6.3.1 Tracheobronchial Stenoses.....	380
6.1.1 Basic Anatomy.....	378	6.3.2 Tracheotomy (Tracheostomy), Cricothyrotomy, and Intubation.....	385
6.1.2 Basic Physiology.....	378	6.3.3 Foreign Bodies and Trauma.....	391
6.2 Method of Investigation: Tracheobronchoscopy	378	6.3.4 Tracheal Infections.....	393
		6.3.5 Congenital and Hereditary Anomalies ..	393
6.3 Clinical Aspects	380	6.3.6 Tracheal Tumors.....	394
7. Esophagus and Swallowing	396		
7.1 Applied Anatomy	396	7.4.3 Esophageal Involvement in Diseases of Neighboring Organs.....	409
7.2 Physiology and Pathophysiology ...	397	7.4.4 Congenital Anomalies and Fistulas.....	409
7.3 Investigation Methods	397	7.4.5 Tumors of the Esophagus.....	410
7.3.1 Clinical Examination.....	397	7.5 Swallowing	411
7.3.2 Diagnostic Imaging.....	397	7.5.1 Physiologic Principles.....	411
7.3.3 Esophagoscopy.....	398	7.5.2 Eating, Preparation of Food, and Swallowing.....	411
7.3.4 Esophageal Manometry and Esophageal pH-Metry (Ambulatory pH-Monitoring)	398	7.5.3 Central Control of Swallowing.....	411
7.4 Clinical Aspects	400	7.5.4 Phases of Swallowing.....	412
7.4.1 Trauma.....	400	7.5.5 Pathophysiology.....	413
7.4.2 Esophageal and Swallowing Disorders ..	405	7.5.6 Etiology of Dysphagia.....	414
		7.5.7 Investigation Procedures.....	414
		7.5.8 Treatment.....	417
8. Neck and Thyroid Gland	424		
8.1 Applied Anatomy and Physiology ...	424	8.4.4 Congenital Anomalies of the Neck.....	443
8.1.1 Basic Anatomy.....	424	8.4.5 Musculoskeletal Defects of the Neck....	447
8.2 Basic Physiology	433	8.4.6 Vascular Malformations and Neoplasia of the Neck.....	447
8.3 Methods of Investigation	434	8.4.7 Tumors of the Neck Region.....	450
8.3.1 Specific History.....	434	8.4.8 Principles of Surgery.....	458
8.3.2 Inspection of the Neck Region.....	434	8.5 Thyroid Gland	461
8.3.3 Palpation.....	434	8.5.1 Topographic Anatomy of the Thyroid Gland.....	461
8.3.4 Diagnostic Imaging.....	435	8.5.2 Diagnostic Procedures in Thyroid Disorders.....	462
8.3.5 Biopsy.....	436	8.5.3 Specific Thyroid Conditions.....	463
8.4 Clinical Aspects of the Neck Region	436	8.6 Parathyroid Glands	469
8.4.1 Inflammatory Diseases of the Neck.....	436	8.6.1 Parathyroid Anatomy.....	469
8.4.2 Cervical Syndrome/Cervical Spine Syndrome.....	441	8.6.2 Pathophysiology.....	469
8.4.3 Neck Trauma.....	442	8.6.3 Clinical Aspects.....	469

9. Salivary Glands	471
9.1 Embryology, Structure, and Congenital Anomalies	471
9.2 Anatomy and Physiology of the Major and Minor Salivary Glands ...	472
9.2.1 Parotid Gland.....	472
9.2.2 Submandibular Gland.....	472
9.2.3 Sublingual Gland.....	473
9.2.4 Minor Salivary Glands.....	473
9.3 Formation and Function of Saliva ...	473
9.3.1 Physiologic Functions of the Saliva	473
9.4 Methods of Investigation	474
9.4.1 Examples of Salivary Gland Dysfunction	474
9.4.2 Age-Dependent Conditions	474
9.4.3 Diagnostic Imaging.....	476
9.4.4 Function Studies	478
9.4.5 Biopsy.....	478
9.5 Clinical Aspects	478
9.5.1 Inflammatory Diseases	478
9.5.2 Sialolithiasis	484
9.5.3 Cysts	485
9.5.4 Sialadenosis	486
9.5.5 Trauma.....	487
9.5.6 Salivary Tumors.....	488
9.5.7 Basic Principles in the Treatment of Salivary Tumors.....	495
References	498
Index	499
