

Contents

I Foundations and Techniques	1
1 Visceral Manipulation according to Barral	3
Theory of Visceral Manipulation	3
Physiology of Organ Movement	3
Motricity	3
Mobility	3
Motility	3
Visceral Joint	3
Double-Leaf System	4
Ligamentary System	4
Turgor and Intracavitary Pressure	4
Mesenteries	4
Omenta	4
Pathology of Organ Movement	4
Disturbed Mobility	4
Disturbed Motility	5
Diagnosis and General Treatment Principles in Visceral Osteopathy	5
Medical History	5
Inspection	5
Palpation	6
Superficial Palpation	6
Deep Palpation	6
Inspection and Palpation Results	6
Listening Tests according to Barral	9
Listening Test in Standing Position	9
Listening Test in Seated Position	9
Listening Test in Supine Position	9
Local Listening Test	10
Sotto-Hall Test according to Barral	11
Rebound Test according to Barral	11
Completed Tests according to Barral	12
Ventilation Test according to Barral	12
Hyperextension Test according to Barral	12
General Treatment Principles and Possibilities in Visceral Treatment	12
Possibilities in Visceral Manipulation	13
Reflex Point Treatment according to Barral	13
Inhibitions	13
Rebound Technique	13
Treatment of Mobility	13
Treatment of Motility according to Barral	13
2 Fascial Treatment of the Organs according to Finet and Williame	15
Foundations	15
Principles of Diagnosis	15
Principles of Fascial Organ Treatment	15
Principles of the Technique for Expiratory Dysfunction	15
Contraindications	16
Hemodynamic Test	16
Fascial Induction Test	16
3 Circulatory Techniques according to Kuchera	18
Objective	18
Principle of the Techniques	19
Arterial Stimulation	19
Venous Stimulation	19
Lymphatic Stimulation	19
Vegetative Harmonization	19
Techniques	20
Vegetative Harmonization	20
Lymphatic Stimulation	24
Venous Stimulation	26
Diaphragm Technique	27
4 Reflex Point Treatment according to Chapman	28
Definition	28
Location and Shape	28
Principle of Treatment	28
Significance of the Reflex Points	28

II Osteopathy of the Individual Organs	31
5 The Liver	33
Anatomy	33
General Facts	33
Location	33
Topographic Relationships	33
Attachments/Suspensions	34
Circulation	34
Movement Physiology according to Barral	35
Physiology	36
Metabolic Functions of the Liver	36
Pathologies	36
Symptoms that Require Medical Clarification	36
Icterus	36
Acute Hepatitis	37
Chronic Hepatitis	37
Fatty Liver	38
Liver Damage from Alcohol	38
Cirrhosis of the Liver	38
Portal Hypertension	38
Primary Hepatocellular Carcinoma	39
Osteopathic Practice	39
Cardinal Symptoms	39
Typical Dysfunctions	39
Associated Structural Dysfunctions	39
Atypical Symptoms	39
Indications for Osteopathic Treatment	39
Contraindications for Osteopathic Treatment	40
Notes for Clinical Application	40
Osteopathic Tests and Treatment	41
Direct Mobilization of the Liver	41
Indirect Mobilization of the Liver	42
Liver Pump according to Barral	45
Oscillations on the Liver	45
Test and Treatment of Liver Motility according to Barral	46
Fascial Treatment according to Finet and Williame	46
Circulatory Techniques according to Kuchera	47
Reflex Point Treatment according to Chapman	47
Recommendations for the Patient	48
6 The Gallbladder	49
Anatomy	49
General Facts	49
Location	49
Topographic Relationships	50
Circulation	50
Movement Physiology according to Barral	50
Physiology	51
Composition of Bile in the Gallbladder	51
Pathologies	52
Symptoms that Require Medical Clarification	52
Cholelithiasis	52
Cholecystitis	52
Gallbladder Carcinoma	52
Osteopathic Practice	52
Cardinal Symptom	52
Typical Dysfunctions	52
Associated Structural Dysfunctions	52
Atypical Symptoms	52
Indications for Osteopathic Treatment	53
Contraindications for Osteopathic Treatment	53
Osteopathic Tests and Treatment	53
Murphy Sign	53
Treatment of the Sphincter of Oddi (Major Duodenal Papilla) according to Barral	53
Voiding the Gallbladder in Seated Position according to Barral	54
Smoothing Out and Stretching the Biliary Tract according to Barral	54
Stretching the Biliary Tract by Lifting the Liver	55
Smoothing Out and Stretching the Common Bile Duct in Supine Position according to Barral	55
De-spasming the Gallbladder according to Barral	55
Defibrosing the Gallbladder according to Barral	56
Oscillations on the Murphy Point	56
Test and Treatment of Motility in the Common Bile Duct according to Barral	56
Fascial Treatment according to Finet and Williame	57
Circulatory Techniques according to Kuchera	57
Reflex Point Treatment according to Chapman	57
Recommendations for the Patient	58
7 The Stomach	59
Anatomy	59
Anatomy of the Esophagus	59
Location	59
Topographic Relationships	59
Attachments/Suspensions	59
Circulation	59
Anatomy of the Stomach	60
Location	60
Topographic Relationships	60
Attachments/Suspensions	60
Circulation	62
Movement Physiology according to Barral	62
Physiology	63
Proximal and Distal Stomach	63
Main Functions of the Stomach	63
Gastric Juice	63
Regulating the Secretion of Gastric Juice	63
Hormones	64
Pathologies	65
Symptoms that Require Medical Clarification	65
Hiatus Hernia	65

Acute Gastritis	66	Osteopathic Tests and Treatment	83
Chronic Gastritis	66	Treatment of the Sphincter of Oddi	
Gastric Ulcer	66	(Major Duodenal Papilla) according to Barral	83
Stomach Cancer	66	Treatment of the Duodenojejunal Flexure	
Osteopathic Practice	67	according to Barral	84
Cardinal Symptoms	67	Mobilization of the Superior Part in the Seated	
Typical Dysfunctions	67	Position via the Liver according to Barral	84
Associated Structural Dysfunctions	67	De-spasming the Descending and Horizontal Part	
Atypical Symptoms	67	in Side Position according to Barral	85
Indications for Osteopathic Treatment	67	Treating the Angle between the Superior Part	
Contraindications for Osteopathic Treatment	67	and the Descending Part in the Supine Position	85
Notes for Clinical Application	68	Test and Treatment of Duodenal Motility	
Osteopathic Tests and Treatment	69	according to Barral	86
Mobilization of the Stomach	69	Fascial Treatment according to Finet and	
Oscillations on the Stomach	72	Williame	86
Stretching the Lesser Omentum	73	Circulatory Techniques according to Kuchera	86
Pylorus Treatment according to Barral	73	Recommendations for the Patient	87
Mobilizing the Mediastinum to Improve			
Esophageal Mobility according to Barral	74		
Test for Deterioration of Hiatus Hernia according			
to Barral	74		
Test for Improvement of Hiatus Hernia according			
to Barral	75		
Treatment of Hiatus Hernia in the Seated			
Position according to Barral	75		
Treatment of Hiatus Hernia in the Supine			
Position	76		
Mobilization of the Gastroesophageal Junction			
via the Liver according to Barral	76		
Treatment of Gastropnoxis according to Barral	77		
Test and Treatment of Stomach Motility			
according to Barral	77		
Fascial Treatment according to Finet and			
Williame	78		
Circulatory Techniques according to Kuchera	78		
Reflex Point Treatment according to Chapman	78		
Recommendations for the Patient	79		
8 The Duodenum	80	9 The Spleen	88
Anatomy	80	Anatomy	88
General Facts	80	General Facts	88
Location	80	Location	88
Topographic Relationships	81	Topographic Relationships	88
Attachments/Suspensions	82	Attachments/Suspensions	88
Circulation	82	Circulation	88
Movement Physiology according to Barral	82	Movement Physiology according to Barral	89
Physiology	82	Physiology	89
Pathologies	83	Pathologies	89
Symptoms that Require Medical Clarification	83	Symptoms that Require Medical Clarification	89
Duodenal Ulcer	83	Splénomegaly	89
Osteopathic Practice	83	Hypersplenism	90
Cardinal Symptoms	83	Osteopathic Practice	90
Typical Dysfunctions	83	Cardinal Symptom	90
Associated Structural Dysfunctions	83	Typical Dysfunctions	90
Indications for Osteopathic Treatment	83	Associated Structural Dysfunctions	90
Contraindications for Osteopathic Treatment	83	Atypical Symptoms	90
		Indications for Osteopathic Treatment	90
		Contraindications for Osteopathic Treatment	90
		Notes for Clinical Application	90
		Osteopathic Tests and Treatment	91
		Test and Stretch of the Phrenicocolic Ligament	91
		Stretch of the Gastrosplenic Ligament	92
		Spleen Pump	92
		Fascial Treatment according to	
		Finet and Williame	93
		Circulatory Techniques according to Kuchera	94
		Reflex Point Treatment according to Chapman	94
		Recommendations for the Patient	94
		10 The Pancreas	95
		Anatomy	95
		General Facts	95
		Division	95
		Location	95
		Topographic Relationships	95

Attachments/Suspensions	96	General Relief Technique according to Barral	108
Circulation	96	Mobilization of the Posterior Peritoneum	
Movement Physiology according to Barral	96	according to Roussé	109
Physiology	96	Mobilization of the Caudal Peritoneum	
Insulin	96	according to Roussé	109
Glucagon	97		
Somatostatin	97	12 The Jejunum and Ileum	110
Pathologies	97	Anatomy	110
Symptoms that Require Medical Clarification	97	General Facts	110
Acute Pancreatitis	97	Location	110
Chronic Pancreatitis	97	Topographic Relationships	110
Pancreatic Cancer	98	Attachments/Suspensions	111
Osteopathic Practice	98	Circulation	111
Cardinal Symptoms	98	Movement Physiology according to Barral	111
Typical Dysfunctions	98	Physiology	111
Associated Structural Dysfunctions	98	Microscopic Wall Structure	111
Atypical Symptoms	98	Regional Differences in Wall Structure between	
Indications for Osteopathic Treatment	98	the Jejunum and Ileum	112
Contraindications for Osteopathic Treatment	98	Processes of Absorption in the Jejunum	
Notes for Clinical Application	98	and Ileum	112
Osteopathic Tests and Treatment	100	Digestion of Carbohydrates	112
Fascial Stretch of the Pancreas in Longitudinal		Digestion of Fats	113
Axis according to Barral	100	Digestion of Proteins	113
Test and Treatment of Pancreatic Motility		Pathologies	114
according to Barral	100	Symptoms that Require Medical Clarification	114
Fascial Technique according to		Crohn Disease	114
Finet and Williame	101	Celiac Disease/Sprue	114
Circulatory Techniques according to Kuchera	101	Osteopathic Practice	114
Reflex Point Treatment according to Chapman	101	Cardinal Symptoms	114
Recommendations for the Patient	102	Typical Dysfunctions	114
		Associated Structural Dysfunctions	114
11 The Peritoneum	103	Atypical Symptoms	114
Anatomy	103	Indications for Osteopathic Treatment	114
General Facts	103	Contraindications for Osteopathic Treatment	115
Location	103	Notes for Clinical Application	115
Topographic Relationships	104	Osteopathic Tests and Treatment	116
Attachments/Suspensions	104	Test and Treatment of the Intestinal Loops in	
Circulation	104	the Supine Position according to Barral	116
Movement Physiology according to Barral	105	Test for Ptosis of the Small Intestine in the	
Physiology	105	Seated or Standing Position according to Barral	116
Pathologies	105	Test and Treatment of the Mesenteric Root in	
Symptoms that Require Medical Clarification	105	the Side Position according to Barral	117
Peritonitis	105	General Relief Technique of the Peritoneum	
Osteopathic Practice	105	and Intestinal Loops in the Supine Position	
Cardinal Symptom	105	according to Barral	117
Typical Dysfunctions	105	Treatment of Intestinal Ptosis	118
Indications for Osteopathic Treatment	106	Treatment of the Ileocecal Valve according	
Contraindications for Osteopathic Treatment	106	to Barral	119
Notes for Clinical Application	106	Test and Treatment of Motility according	
Osteopathic Tests and Treatment	106	to Barral	119
Test and Treatment of Mobility according		Fascial Treatment according to	
to Barral	106	Finet and Williame	120
Test and Treatment of Motility according to Barral	107	Circulatory Techniques according to Kuchera	120
Local Listening Test	107	Reflex Point Treatment according to Chapman	121
Indirect Mobilization of the Peritoneum with		Recommendations for the Patient	121
Long Arm Lever according to Barral	108		

13 The Colon	122	Attachments/Suspensions	140
Anatomy	122	Circulation	140
General Facts	122	Movement Physiology according to Barral	141
Location	122	Physiology	141
Topographic Relationships	123	Functions of the Kidney	141
Attachments/Suspensions	124	Pathologies	141
Circulation	124	Symptoms that Require Medical Clarification ..	141
Movement Physiology according to Barral	126	Nephrolithiasis	141
Physiology	126	Acute Pyelonephritis	141
Pathologies	126	Nephrotic Syndrome	141
Symptoms that Require Medical Clarification ..	126	Renal Cell Carcinoma	142
Appendicitis	126	Osteopathic Practice	142
Ulcerative Colitis	126	Cardinal Symptoms	142
Irritable Bowel Syndrome	127	Typical Dysfunctions	142
Diverticulitis	127	Associated Structural Dysfunctions	143
Colorectal Cancer	127	Atypical Symptoms	143
Osteopathic Practice	127	Indications for Osteopathic Treatment	143
Cardinal Symptoms	127	Contraindications for Osteopathic Treatment ..	143
Typical Dysfunctions	127	Notes for Clinical Application	143
Associated Structural Dysfunctions	127	Osteopathic Tests and Treatment	144
Atypical Symptoms	127	Palpation of the Kidney according to Barral	144
Indications for Osteopathic Treatment	128	Mobilization of the Kidney	145
Contraindications for Osteopathic Treatment ..	128	Treatment of Grynfeltt Triangle according	
Osteopathic Tests and Treatment	128	to Barral	147
Mobilization of the Cecum according to Barral ..	128	Test and Treatment of Kidney Motility according	
Combined Treatment of the Cecum with Leg		to Barral	148
Lever according to Barral	130	Fascial Treatment according to	
Mobilization of the Sigmoid Colon according		Finet and Williame	148
to Barral	130	Circulatory Treatment according to Kuchera ...	148
Treatment of the Sigmoid Mesocolon	131	Reflex Point Treatment according to Chapman ..	149
Combined Treatment of the Sigmoid with Leg		Recommendations for the Patient	149
Lever according to Barral	132		
Mobilization of the Ascending Colon		15 The Urinary Bladder	150
according to Barral	133	Anatomy	150
Lengthwise Stretch of the Ascending Colon		Anatomy of the Urinary Bladder	150
according to Barral	133	General Facts	150
Treatment of the Toldt Fascia according to Barral	134	Location	150
Test and Treatment of the Colic Flexures		Topographic Relationships	150
according to Barral	134	Attachments/Suspensions	152
Stretching Both Flexures Simultaneously		Circulation	153
according to Barral	135	Anatomy of the Ureter	153
Mobilization of the Flexures in the Sagittal		General Facts	153
Plane according to Barral	135	Location	153
Treatment of Motility according to Barral	136	Topographic Relationships	154
Fascial Treatment according to		Attachments/Suspensions	154
Finet and Williame	136	Circulation	155
Circulatory Treatment according to Kuchera ...	137	Movement Physiology according to Barral	155
Reflex Point Treatment according to Chapman ..	138	Physiology	155
Recommendations for the Patient	138	Mechanism of Bladder Filling and Voiding	155
		Micturition	155
14 The Kidneys	139	Pathologies	155
Anatomy	139	Symptoms that Require Medical Clarification ..	155
General Facts	139	Cystitis	155
Location	139	Osteopathic Practice	156
Topographic Relationships	140	Cardinal Symptoms	156
		Typical Dysfunctions	156

Associated Structural Dysfunctions	156	Atypical Symptoms	170
Atypical Symptoms	156	Indications for Osteopathic Treatment	170
Indications for Osteopathic Treatment	156	Contraindications for Osteopathic Treatment . .	170
Contraindications for Osteopathic Treatment . .	156	Notes for Clinical Application	170
Notes for Clinical Application	156	Osteopathic Tests and Treatment	171
Osteopathic Tests and Treatment	158	Test and Treatment of the Fundus of the	
Test and Treatment of Bladder Mobility Cranially		Uterus according to Barral	171
in the Supine Position according to Barral	158	Test and Treatment of the Ovaries and Broad	
Mobilization Cranially in the Seated Position		Ligament of the Uterus according to Barral	172
according to Barral	159	Mobilization of the Uterus via the Median	
Mobilization of the Pubovesical Ligament		and Medial Umbilical Ligaments in the Supine	
according to Barral	160	Position according to Barral	172
Combined Technique for the Median Umbilical		Combined Mobilization of the Uterus with Leg	
Ligament, Medial Umbilical Ligament, and		Lever in the Supine Position according to Barral	172
Pubovesical Ligament in the Supine Position		Obturator Foramen Technique	173
according to Barral	160	Test and Treatment of Motility according to	
Combined Technique for Stretching the Ureter		Barral	173
in the Seated Position according to Barral	161	Circulatory Techniques according to Kuchera . .	174
Ureter Mobilization via the Peritoneum	161	Reflex Point Treatment according to Chapman .	174
Obturator Foramen Technique	162	Recommendations for the Patient	175
Test and Treatment of Motility	162		
Circulatory Techniques according to Kuchera . .	163	17 The Thorax	176
Reflex Point Treatment according to Chapman .	163	Anatomy	176
Recommendations for the Patient	164	Anatomy of the Heart	176
		General Facts	176
16 The Uterus / Fallopian Tubes / Ovaries . . .	165	Location	176
Anatomy	165	Topographic Relationships	177
Anatomy of the Uterus	165	Attachments/Suspensions	177
General Facts	165	Circulation	178
Location	165	Anatomy of the Lung	178
Topographic Relationships	165	General Facts	178
Attachments/Suspensions	165	Location	178
Circulation	165	Topographic Relationships	180
Anatomy of the Ovaries	166	Attachments/Suspensions	180
General Facts	166	Circulation	180
Location	166	Anatomy of the Mediastinum	181
Topographic Relationships	166	Movement Physiology	183
Attachments/Suspensions	166	Physiology	183
Circulation	166	Physiology of the Heart	183
Movement Physiology according to Barral	167	Systole	183
Physiology	167	Diastole	184
Hypothalamus	167	Physiology of the Lung	184
Hypophysis	167	Pathologies	185
Hormones of the Ovaries	167	Symptoms that Require Medical Clarification . .	185
Ovarian Cycle	168	Coronary Heart Disease	185
Cycle of the Uterine Mucosa	168	Obstructive Pulmonary Disease	185
Menopause	168	Restrictive Pulmonary Disease	186
Pathologies	169	Osteopathic Practice	186
Symptoms that Require Medical Clarification . .	169	Cardinal Symptoms	186
Myoma	169	Typical Dysfunctions	186
Endometriosis	169	Associated Structural Fixations	186
Salpingitis/Oophoritis	169	Atypical Symptoms	186
Osteopathic Practice	170	Indications for Osteopathic Treatment	186
Cardinal Symptoms	170	Contraindications for Osteopathic Treatment . .	187
Typical Dysfunctions	170	Notes for Clinical Application	187
Associated Structural Dysfunctions	170	Osteopathic Tests and Treatment	188

Test and Treatment of the Ligaments of the Coracoid Process according to Barral	188	Mobilization of the Clavipectoral Fascia according to Barral	195
Test and Treatment of the Costoclavicular Ligament according to Barral	189	Mobilization of the Greater Supraclavicular Fossa	195
Compression and Decompression of the Clavicle Along the Longitudinal Axis according to Barral	189	Pectoral Lift according to Barral	196
Fascial Mobilization of the Clavicle	190	Mobilization of the Mediastinum according to Barral	196
Compression and Decompression of the Sternum according to Barral	191	Sternocostal Fascial Release in Prone Position . .	197
Mobilization of the Corpomanubrial Junction of the Sternum	192	Fascial Mobilization on Top of the Coronary Arteries	197
Mobilization of the Corpopiphoid Junction of the Sternum	192	Treatment of the Lung and Pleura	198
Mobilization of the Sternocostal Joints	193	Circulatory and Reflexive Treatment according to Kuchera	198
Sternal Lift according to Barral	193	Reflex Point Treatment according to Chapman .	198
Mobilization of the Subclavius according to Barral	194	Recommendations for the Patient	199
Mobilization of the Transversus Thoracis according to Barral	194	The Five Exercises according to Fulford	199
