Foreword	ix
Contributors	x
1. Introduction	3
<i>Harika Dabbara and Julie C. Bulman</i>	
2. Pharmacologic Management of Venous Thromboembolism	9
<i>Brian J. Carney and Kenneth A. Bauer</i>	
2.1 Role of Pharmacologic Treatment of VTE	9
2.2 Traditional Anticoagulants	9
2.2.1 Heparins and Heparin Derivatives	9
2.2.2 Warfarin	11
2.3 Newer Anticoagulants	12
2.4 Special Populations	14
References	14
3. Imaging of Deep Vein Thrombosis and Pulmonary Emboli	19
<i>Olga R. Brook</i>	
3.1 Ultrasound	19
3.1.1 Accuracy of Doppler Ultrasound for Diagnosis of DVT	19
3.1.2 Indication	19
3.1.3 Technique	20
3.1.4 Imaging Features	20
3.1.5 Pitfalls	21
3.2 Computed Tomography Pulmonary Angiography	21
3.2.1 Indication	21
3.2.2 Technique	21
3.2.3 Imaging Features	22
3.2.4 Pitfalls	23
3.2.5 Special Considerations	24
3.3 Nuclear Medicine	25
3.3.1 Accuracy of Nuclear Medicine Studies for VTE Diagnosis	25
3.3.2 Indication	25
3.3.3 Technique	25
3.3.4 Imaging Features	26
3.3.5 Pitfalls	26
3.3.6 Special Considerations	27
3.4 Conventional Pulmonary Angiography	27
3.4.1 Indication	27
3.4.2 Technique	27
3.4.3 Imaging Features	28
3.4.4 Pitfalls	28
3.4.5 Special Consideration	28
References	28

4.	Catheter-Directed Thrombolysis Treatment of Deep Venous Thrombosis	33		
	<i>Dana Safavian and John Fritz Angle</i>			
4.1	Anatomy	33	4.6	Mechanical Thrombectomy
4.2	Diagnosis	34	4.7	Who Benefits from Pharmacomechanical Therapy
4.3	Anticoagulation	35	4.8	Upper Extremity
4.4	Systemic Thrombolytic Therapy for VTE	36		References
4.5	Catheter-Directed Thrombolysis for DVT	37		
5.	Inferior Vena Cava Filter Placement	47		
	<i>David Heister and Thomas B. Kinney</i>			
5.1	Introduction	47	5.6.1	Placement Location
5.2	History and Background of IVC Filters	47	5.6.2	Variants
5.3	IVC Filter Placement Indications	47	5.7	Deployment Complications
5.4	Contraindications	49	5.8	Timing of IVC Filter Placement
5.5	Choosing a Filter	50	5.9	Postplacement Management ...
5.5.1	Permanent and Removable Filters	51	5.10	Conclusion
5.6	Deployment Methods	51		References
6.	Retrievable Inferior Vena Cava Filters: Challenges in Device Utilization, Advanced Retrieval Techniques to Optimize Outcomes	59		
	<i>Nicholas Xiao, Karan S. Gulaya, Robert J. Lewandowski, and Kush R. Desai</i>			
6.1	Introduction	59	6.4.1	Standard Technique
6.2	Permanent versus Retrievable IVCs	59	6.4.2	Advanced Retrieval Techniques...
6.3	Obstacles to Filter Retrieval	60	6.5	Conclusion
6.4	Filter Types and Removal Techniques	60		References

7.	Inferior Vena Caval and Right Atrial Thrombus	69			
	<i>Scott Resnick</i>				
7.1	Introduction	69	7.3.2	Diagnostic Imaging RA	73
7.2	Etiologies	69	7.4	Medical Management	74
7.2.1	Congenital IVC Anomalies.....	70	7.5	Interventional Management ...	74
7.2.2	Congenital Coagulopathies	70	7.5.1	Acute IVC Thrombosis	74
7.2.3	Acquired Coagulopathies	70	7.5.2	Chronic IVC Thrombosis	79
7.2.4	Medical Devices	71	7.5.3	Right Atrial Interventions.....	82
7.2.5	IVC Filtration.....	71	7.6	Conclusion	83
7.2.6	Intracardiac Devices.....	72		References	84
7.3	Diagnosis	73			
7.3.1	Diagnostic Imaging—IVC.....	73			
8.	Interventional Approaches to Recanalization of Chronic Central Venous Occlusions	89			
	<i>Shaun W. McLaughlin, Loren Mead, and Deepak Sudheendra</i>				
8.1	Introduction	89	8.6	Complications/Special Considerations	97
8.2	Indications/Contraindications for Recanalization in CTO	91	8.6.1	CTO due to IVC Filter Occlusion ...	98
8.3	Patient Selection and Preprocedure Workup	92	8.6.2	Stent Migration/Malpositioning... ..	98
8.4	Technique	93	8.6.3	Stents Trapped in Filters	99
8.4.1	Equipment.....	93	8.7	Clinical Data and Outcomes	102
8.4.2	Patient Positioning/Access/Technique.....	93	8.8	Conclusion	103
8.4.3	Balloon Angioplasty/Stenting.....	95		References	103
8.5	Postprocedural Management ...	96			
9.	Pulmonary Embolism	109			
	<i>Mina S. Makary, Alexander Y. Kim, Mamdouh Khayat, and Joshua D. Dowell</i>				
9.1	Clinical Assessment: Massive versus Submassive	109	9.3	Pharmacologic Catheter-Directed Lysis	111
9.2	Medical/Systemic Treatment of PE: Anticoagulation and Thrombolysis	109	9.3.1	Traditional vs. Ultrasound Assisted (EKOS)	111
			9.3.2	Contraindications/Cautions	112

9.3.3	Patient Monitoring	112	9.3.7	Hydrodynamic Devices.....	113
9.3.4	Mechanical Thrombectomy	112	9.3.8	Surgical Thrombectomy.....	113
9.3.5	Aspiration Thrombectomy.....	112		References.	113
9.3.6	Rotational Devices.....	113			

10. Venous Thromboembolism: Management of Bleeding Complications 117

James Chen and Deepak Sudheendra

10.1	Bleeding Complications Associated with Venous Thromboembolism Treatment	117	10.2	Quality Improvement and Safety of Treatment of Thromboembolic Disease and Guidelines and Complication Thresholds for Treatment of DVT and PE.	120
10.1.1	Patient Selection and Monitoring for Bleeding Complications	117		<i>Boris Nikolic</i>	
10.1.2	Management of Bleeding Complications	118		References.	121
10.1.3	Summary	118	10.3	Filter-Related Adverse Events and Thresholds	123
	References.	118		<i>Boris Nikolic</i>	
				References.	125
