

## A

abscess  
 epidural, *see* epidural abscess  
 vs. epidural hematoma 261  
 paravertebral 164  
 psoas 171

acquired hydromyelia, *vs.* Arnold–Chiari malformation 3

acute transverse myelitis 182–185  
 vs. spinal multiple sclerosis 189

Anderson and d’Alonzo classification, dens fractures 48

aneurysmal bone cyst 204–207  
 vs. giant cell tumor 211  
 vs. osteoblastoma 200  
 vs. osteoid osteoma 197

ankylosing spondylitis 147–151  
 vs. diffuse idiopathic skeletal hyperostosis 132  
 fractures 154–157  
 vs. Klippel–Feil syndrome 28  
 and kyphosis 30  
 ligament calcification and bamboo spine 152, 153  
 vs. psoriatic spondyloarthropathy 143  
 vs. Reiter syndrome 146  
 vs. Scheuermann disease 35  
 stress fractures 83–86

annulus fibrosus 87  
 defined 100

anterior lumbar interbody fusion (ALIF) 285

anterior subluxation 73–75

arachnoiditis 178–181  
 vs. granulomatous inflammation 177

Arnold–Chiari malformation 1–3

arterial spinal cord infarction 266–269

arteriovenous malformation 262–265

arthritis  
 juvenile rheumatoid, *vs.* Klippel–Feil syndrome 28  
 rheumatoid 133–137  
 and chronic trauma 138–140

astrocytoma 252–255  
 vs. acute transverse myelitis 185  
 vs. ependymoma 251  
 vs. hemangioblastoma 258  
 vs. spinal multiple sclerosis 189

asymmetry, facet joint,  
 vs. malrotation 42

atlantodental subluxation, rheumatoid arthritis 134, 135  
 atlas, fracture classification 60, 61

## B

Baastrup disease 121, 122

bacterial spondylitis  
 acute 158–165  
 frequency distribution 167  
 vs. tuberculous spondylitis 169

bamboo spine 152, 153

Bechterew disease 147

bone marrow inhomogeneity,  
 vs. bone metastasis 221

bone metastases 216–221

breast carcinoma, metastasis 217

Brodie’s abscess, *vs.* osteoid osteoma 197

bronchial carcinoma, metastasis 219

Brown–Séquard syndrome 254

bulge/bulging, disk 100, 101, 103–107  
 defined 100  
 burst fracture 44, 54–57  
 vs. Chance fracture 59  
 with fissure fracture 54

butterfly vertebra 21

## C

calcium pyrophosphate disease,  
 vs. Baastrup disease 122

cartilaginous nodules, *vs.* Scheuermann disease 35

cavernous malformation, intramedullary,  
 vs. arteriovenous malformation 265

cerclage wire 281

cerebellar tonsils, descent, *vs.* Arnold–Chiari malformation 3

cerebrospinal fluid (CSF) fistula 272–274

cervical spine  
 fat C2 sign 63  
 flexion fracture 51–53  
 rheumatoid arthritis 134  
 trauma, offset sign 61

Chance fracture 58, 59

chondrosarcoma  
 vs. chordoma 228  
 vs. osteochondroma 203

chorda remnant,  
 vs. disk degeneration 89

chordoma 226–228

- classification
    - anterior subluxation 73
