

Contents

1 Basics

1.1 Anatomy and Physiology of the Pelvic Floor	1	Contribution of the Pelvic Floor Muscles to Lumbopelvic Control	81
<i>Helga Fritsch</i>		Contribution of the Pelvic Floor Muscles to Control of the Lumbar Spine	83
Overview	1	Contribution of the Pelvic Floor Muscles to Control of the Pelvis	87
The Bony Pelvis	2	Coordination of the Multiple Functions of the Trunk Muscles	89
Muscles of the Pelvic Floor	3	Trunk Muscle Function and Low Back and Pelvic Pain	90
Muscles Below and External to the Pelvic Floor	6	Implications for Rehabilitation of Back Pain and Pelvic Floor Muscle Dysfunction	94
Pelvic Organs	7	Conclusion	94
Pelvic Connective Tissue	9		
Innervation Systems Related to the Pelvic Floor	11	1.6 Reflex Incontinence Caused by Underlying Functional Disorders	98
Interactions of the Functional Systems Related to the Pelvic Floor ..	15	<i>Carmen-Manuela Rock</i>	
Aging of Pelvic Floor Muscles	19	Reflex Incontinence	98
Acknowledgment	20	Upright Posture	99
1.2 The Nervous System and Motor Learning	21	Action of the Pelvic Floor Muscles in Prone Position During Breathing ...	107
<i>Darcy Umphred</i>		Generation of Strength by Positioning	109
Introduction	21	Flexed Posture	109
Motor Control and Motor Learning ...	21	Sitting Posture Specific to Incontinence	111
Neuroplasticity	29	Subjective Perception of Strength in the Pelvic Floor Muscles	113
Conclusion	33	Development of Strength in the Pelvic Floor Muscles and Symptomatic Incontinence	115
1.3 Musculoskeletal Chronic Pelvic Pain	35	1.7 Psychosocial Influences	117
<i>Theresa M. Spitznagle</i>		<i>Marjo J. Ramakers,</i>	
Introduction	35	<i>Rik H.W. van Lunsen</i>	
Movement Diagnosis in Chronic Pelvic Pain	40	Introduction	117
Movement Examination	47	Chronic Pain	118
Elements of the Kinesiopathological Model	50	The Pelvic Floor as a Sexual Organ ...	119
Conclusion	64	The Hyperactive Pelvic Floor Syndrome	120
1.4 Interdependence of Posture and the Pelvic Floor	68	Sexual and Physical Abuse	121
<i>Beate Carrière</i>		1.8 Evidence-Based Physical Therapy for Stress and Urge Incontinence ...	128
Possible Posture Conditions Affecting the Pelvic Floor	69	<i>Kari Bø</i>	
Possible Conditions in the Pelvic Region Affecting Posture	73	What Does "Evidence-Based" Mean? ..	128
Possible Conditions Affecting Posture and the Pelvic Floor	75	Physical Therapy and Urinary Incontinence	129
Ideal Standing Posture	78		
Evaluation and Restoration of Posture	79		
1.5 Low Back Pain and the Pelvic Floor	81		
<i>Paul W. Hodges</i>			
Introduction	81		

Effect of Physical Therapy for Stress and Urge Incontinence	132
---	-----

Conclusion	138
------------------	-----

2 Treatment Techniques

2.1 Manual Physiotherapy Techniques for Pelvic Floor Disorders	143
<i>Claudia Brown</i>	
Facilitation	143
Mobilization	145
Strengthening	146
Normalization of Tone	146
Pain Modification	147
Combining Techniques	148
2.2 Strain and Counterstrain for Pelvic Pain	149
<i>Randall S. Kusunose</i>	
Introduction	149
History	150
Evaluation with Tender Points	151
Techniques	153
Piriformis (PIR)	159
Gluteus Medius (GM)	159
Obturator Internus (OI)	160
Levator Ani (LA)	160
Quadratus Lumborum (QL)	161
Posterior First Sacral (PS1)	161
Posterior Second Sacral (PS2) and Posterior Third Sacral (PS3)	162
Posterior Fourth Sacral (PS4)	162
Posterior Fifth Sacral (PS5)	163
Coccyx (CYX)	163
2.3 Connective-Tissue Manipulations	164
<i>Elizabeth A. Holey</i>	
Basics	164
Assessment	166
Connective-Tissue Reflex Zones	167
Technique	169
Indications	169
Principles	170
Progression of Treatment	170
Physiological Basis of CTM	171
2.4 Physical Therapies	177

Electrotherapy	177
<i>Jane D. Frahm</i>	
Biofeedback and Electromyography ...	203
<i>Jane D. Frahm</i>	
Heat Application: the Hot Roll	228
<i>Beate Carrière</i>	
2.5 Visceral Mobilization	230
<i>Myriam Vleminckx</i>	
General Guidelines for Manipulation of the Pelvic Viscera	231
Manipulation of the Bladder	231
Manipulation of the Prostate	236
Manipulation of the Uterus	238
Manipulation of the Rectum	247
Conclusions	250
2.6 Training and Functional Exercises for the Muscles of the Pelvic Floor	252
<i>Barbara Gödl-Purrer</i>	
Functional Significance of the Pelvic Floor Musculature	252
Muscle Training—Therapeutic Exercise	253
2.7 Diagnosis, Evaluation, and Treatment of Reflex Incontinence ...	267
<i>Carmen-Manuela Rock</i>	
Diagnosis and Evaluation	267
Treatment	276
2.8 Therapy for Lymphedema	286
<i>Mary K. Rosenberg</i>	
Definition of Lymphedema	286
Primary versus Secondary Lymphedema	288
Secondary Causes and Contributing Factors	289
Mechanisms for Dysfunction	289
Psychosocial Impact	289
Manual Lymph Drainage and Complete Decongestive Therapy	290

3 Pediatric Therapy

Cynthia M. Feldt

Incidence of Enuresis	293
Incidence of Encopresis	294
Classification of Enuresis	294
Classification of Encopresis	295
Normal Continence Development ...	295
Etiology of Enuresis	296
Etiology of Encopresis	301
Subjective Examination	304

Physical Examination	306
Diagnostic Urological Studies	307
Diagnostic Gastrointestinal Tests ...	308
Medical Interventions for Enuresis ...	309
Medical Interventions for Encopresis	310
Therapeutic Interventions	310
Summary	314

4 Therapy for Women

4.1 Swinging and Sliding—Back-to-Nature Labor: a Safer Method for Mother and Child	318
<i>Angela Heller</i>	
Prenatal Care: Preventive Care for the Pelvic Floor During Labor	318
Breathing during the First Stage of Labor	319
Breathing during the Transition Phase and the “Swinging” Respiratory Aid ..	320
“Sliding” and Breathing during the Expulsion Stage	328
4.2 Storage and Emptying Disorders of the Bladder	343
<i>Ulla Henschler</i>	
Anatomy and Physiology of the Lower Urinary Tract	343
Disorders of Storage and Voiding	347
Treatment	362
4.3 Prolapse	374
<i>Veronika Ospelt</i>	
Introduction	374
Terminology	374

Classification	374
Causes of Prolapse	377
Symptoms of Genital Prolapse	380
Basic Principles of Physiotherapeutic Procedures	381
Procedure for Physical Examination ..	382
Treatment Plan	388
Supportive Measure:	
Pessary Treatment	393
Outcome Measurement	397
Final Remarks	397

4.4 Treatment of Sexual and Pelvic Floor Dysfunctions	400
<i>Mieke Raadgers, Marjo J. Ramakers, Rik H.W. van Lunsen</i>	
Introduction	400
Vulvar Vestibulitis Syndrome	400
Vaginismus	401
Hyperactive Pelvic Floor Syndrome ..	402
Treatment of Women with Pelvic Floor Dysfunction and Sexual Dysfunction by a Specialist Physiotherapist	402

5 Therapy for Men

Grace Dorey

Male Pelvic Floor Function	415
Prostate Conditions	417
Male Incontinence	418
Assessment of Male Incontinence	420

Intervention for Male Incontinence ..	422
Pelvic Pain	427
Erectile Dysfunction	428
Conclusions	432

6 Treatment for Rectal and Anal Disorders

6.1 Anal Dysfunction after Delivery	440
<i>Pauline Chiarelli</i>	
Introduction	440
The Prevalence of Anorectal Symptoms	440
Pelvic Floor Trauma and Childbirth ..	442
Obstetric Risk Factors for Anorectal Dysfunction	443
Symptoms of Anorectal Dysfunction ..	445
Other Causes of Fecal Incontinence ..	446
Summary	446

6.2 Physiotherapy for Anorectal Disorders	448
<i>Claudia Brown</i>	
Basic Anatomy and Normal Function	448
Normal Mechanisms of Continence and Stool Evacuation	450
Anorectal Disorders	451
Related Pathologies	452
Specialized Tests	453
Physiotherapy Evaluation	453
Physiotherapeutic Approach	455
Treatment	455

Index	464
--------------------	-----
