Foreword	xviii
Preface	xix
Acknowledgments	xx
Contributors	xxi

Part I: Brain

1 Sports-Related Head Injury	3
<i>Minh Quan Le, Mohammed Emam, Alexis M. Coslick, and Daniel Krasna</i>	
1.1 Traumatic Brain Injury Overview	3
1.1.1 Classification	3
1.1.2 Epidemiology	3
1.1.3 Pathophysiology	4
1.2 Management Principles	4
1.2.1 Workup and Treatment	4
1.2.2 Complications	6
1.3 Clinical Pearls	7
References	7
2 Imaging of Sports-Related Neurological Injuries	9
<i>Joshua L. Wang, Ryan G. Eaton, James R. Borchers, and James Bradley Elder</i>	
2.1 Basic Anatomy and Pathophysiology of the Spine	9
2.2 Specific Injuries	9
2.2.1 Craniocervical Junction Injuries	9
2.2.2 Subaxial Cervical Spine	9
2.2.3 Thoracolumbar Spine	10
2.3 Imaging of Spine Trauma	10
2.3.1 Radiographs and Computed Tomography (CT)	10
2.3.2 Magnetic Resonance Imaging (MRI)	11
2.4 Imaging of Cranial Trauma	12
2.4.1 Initial Evaluation	12
2.4.2 Computed Tomography	12
2.4.3 Magnetic Resonance Imaging	12
2.4.4 Advanced Imaging	13
2.5 Clinical Pearls	14
2.6 Disclosure Statement	14
References	14
3 Management of Sports-Related Head Injury in the Athlete	15
<i>Margot Putukian</i>	
3.1 Recognize and Remove	15
3.2 Re-evaluate	16
3.3 Rehabilitation	17
3.4 Refer	17
3.5 Recovery	17
3.6 Return to Sport (RTS) and Return to Learn (RTL)	17
3.7 Reconsider—Potential Long-term Effects	19

3.8	Retire	19	3.11	Clinical Pearls	20
3.9	Risk Reduction	20		References	20
3.10	Refine—Para Sport and Pediatric Considerations	20			
4	Post-concussion Syndrome Management	22			
	<i>Benjamin L. Brett, Lindsay D. Nelson, and Michael A. McCrea</i>				
4.1	Post-concussion Syndrome	22	4.4.2	Oculomotor, Vestibular, and Cervical Rehabilitation	25
4.2	Management of PCS	23	4.4.3	Pharmacological Management	26
4.3	Evaluation of PPCS	24	4.4.4	Psychological Interventions	26
4.3.1	Subthreshold Exercise	24	4.5	Clinical Pearls	26
4.3.2	Neuropsychological Evaluation	24	4.6	Conflicts of Interest/Financial Disclosures	26
4.3.3	Oculomotor and Vestibular Assessment	25		References	27
4.4	Treatment of PCS	25			
4.4.1	Subthreshold Exercise	25			
5	Congenital Cranial Anomalies and Implications for Athletics	28			
	<i>Adam Ammar, Andrew M. Hersh, and Alan R. Cohen</i>				
5.1	Introduction	28	5.7.1	Arteriovenous Malformations	31
5.2	Hydrocephalus	28	5.7.2	Moyamoya Syndrome and Disease	31
5.3	Craniosynostosis	29	5.8	Prior Craniotomy	32
5.4	Chiari Malformations	29	5.9	Conclusions	32
5.5	Epilepsy	30	5.10	Clinical Pearls	32
5.6	Arachnoid Cysts	30		References	32
5.7	Intracranial Vascular Pathologies	31			
6	Considerations for the Child with Sports-Related Head Injury	34			
	<i>Gerard A. Gioia</i>				
6.1	Introduction	34	6.4	Return to School	37
6.2	SCAT6/SCOAT6	36	6.5	Returning the Youth Athlete to Sport	37
6.3	Treatment and Management of Concussion in Youth	36		References	39
7	Concussion: Long-term Sequelae	40			
	<i>Ryan G. Eaton, Joshua L. Wang, and Russell R. Lonser</i>				
7.1	Introduction	40	7.4	Pathologic Features	41
7.2	History	40	7.4.1	Gross Findings	41
7.3	Epidemiology	40	7.4.2	Histologic Features	41

7.5	Clinical Syndrome	41	7.8	Conclusion	43
7.6	Diagnostic Modalities	41	7.9	Clinical Pearls	43
7.6.1	Imaging	41	7.10	Disclosure Statement	43
7.6.2	Molecular Biomarkers	42		References	43
7.7	Treatment	42			

Part II: Spine

8	Sports-Related Spine Injuries	47			
	<i>Andrew M. Hersh, Michael D. White, and Nicholas Theodore</i>				
8.1	Introduction	47	8.4.4	Spinal Cord Injuries	49
8.2	Association of Sports with Spine Injuries	47	8.5	Injury Classification and Scoring Systems ...	50
8.3	Spine Anatomy and Properties	48	8.6	Conclusion	51
8.4	Sports-Related Spine Injuries	49	8.7	Clinical Pearls	51
8.4.1	Cervical Spine Injuries	49		References	51
8.4.2	Thoracic and Lumbar Spine Injuries	49			
8.4.3	Back Pain	49			
9	Biomechanics of the Head and Spine in Sports	53			
	<i>Declan A. Patton and Kristy B. Arbogast</i>				
9.1	Introduction	53	9.4.3	Computational Models	55
9.2	Fundamental Brain Biomechanics	53	9.5	Role of Impact Direction	55
9.2.1	Translational Kinematics	53	9.6	Biomechanics of Injury Prevention	55
9.2.2	Rotational Kinematics	54	9.7	Prevention of Long-term Consequences of Repetitive Head Impacts	57
9.3	Direct versus Indirect Loads	54	9.8	Biomechanics of Spinal Injury in Sport	57
9.4	Techniques to Determine Injury Thresholds ...	54	9.9	Clinical Pearls	57
9.4.1	Physical Reconstructions	54		References	58
9.4.2	Head Impact Sensors	54			
10	Nonsurgical Treatment of Spinal Injuries	61			
	<i>Mitchell J. Christiansen, Michael D. White, Jeff Ehresman, Joseph D. DiDomenico, and Randall W. Porter</i>				
10.1	Introduction	61	10.3.6	Neuropraxia, Stingers, and Burners	62
10.2	General Considerations and Initial Assessment	61	10.3.7	Fractures without SCI	63
10.3	Cervical Spine	61	10.3.8	Return-to-Play Recommendations	64
10.3.1	Epidemiology	61	10.4	Thoracic Injuries	65
10.3.2	Strain and Sprain	62	10.4.1	Epidemiology	65
10.3.3	Ligamentous Injuries	62	10.4.2	Strain and Sprain	65
10.3.4	Disk Bulge and Herniation	62	10.4.3	Ligamentous Injuries	65
10.3.5	Definition of Cervical Stenosis	62	10.4.4	Disk Bulge and Herniation	65
			10.4.5	Neuropraxia	65

10.4.6	Fractures without SCI.....	65	10.5.6	Definition of Spinal Stenosis.....	67
10.4.7	Return-to-Play Recommendations.....	65	10.5.7	Fractures without Instability.....	67
10.5	Lumbar Injuries	66	10.5.8	Return-to-Play Recommendations.....	67
10.5.1	Epidemiology.....	66	10.6	Conclusion	68
10.5.2	Strain and Sprain.....	66	10.7	Clinical Pearls	68
10.5.3	Ligamentous Injuries.....	66	10.8	Disclosures	68
10.5.4	Disk Bulge and Herniation.....	66		References	68
10.5.5	Spondylolysis and Spondylolisthesis.....	66			
11	Emergent Management of the Athlete with Spinal Cord Injury	70			
	<i>Kelly Jiang, Andrew M. Hersh, and Nicholas Theodore</i>				
11.1	Introduction	70	11.6	Additional Treatment Options	71
11.2	Pregame Planning	70	11.7	Conclusion	71
11.3	Initiating Spinal Precautions	70	11.8	Clinical Pearls	71
11.4	On-Field Management	70	11.9	Disclosures	72
11.5	In-Hospital Management	71		References	72
12	Physical Examination of the Athletic Spine	73			
	<i>Stephanie Van, Faisal M. Zaman, and Mark I. Ellen</i>				
12.1	Introduction	73	12.3.2	Thoracic Spine.....	74
12.2	The Spine Examination	73	12.3.3	Lumbar Spine.....	75
12.3	Phases of the Physical Examination of the Spine and Corresponding Pathologies	73	12.3.4	Shoulder, Hip, and Sacroiliac Joints.....	76
12.3.1	Cervical Spine.....	73	12.4	Clinical Pearls	77
				References	78
13	Rehabilitation of Athletic Spinal Injuries	79			
	<i>Alexis M. Coslick and Mark I. Ellen</i>				
13.1	Introduction	79	13.8	Muscle Activation and Motor Control	81
13.2	General Rehabilitation Overview	79	13.9	Adaptive Progression	81
13.3	Acute Phase	79	13.10	Aerobic Exercise	83
13.4	Therapeutic Modalities	79	13.11	Aquatic Rehabilitation	83
13.5	Biomechanics	79	13.12	Rehabilitation Progression	83
13.6	Core Stabilization	80	13.13	Clinical Pearls	84
13.7	Spine Mobility	80		References	84
14	Spinal Manipulation	85			
	<i>Michael A. Miller</i>				
14.1	Introduction	85	14.3	Indications for Spinal Manipulation	85
14.2	Introduction to Chiropractic	85	14.3.1	Pain.....	85

14.3.2	Decreased Range of Motion	85	14.3.14	Proactive Care	87
14.3.3	Posture	85	14.4	Contraindications for Spinal Manipulation ..	87
14.3.4	Neurological or Nerve Root Entrapment.....	86	14.5	What is an Adjustment?	88
14.3.5	Sacroiliac (SI) Disorders	86	14.5.1	Practice Pearl	88
14.3.6	Headaches	86	14.6	The Effects of Spinal Misalignments	88
14.3.7	Vertigo, Equilibrium, and Balance Problems	86	14.7	Commonly Utilized Chiropractic Techniques	90
14.3.8	Whiplash	87		References.....	91
14.3.9	Concussion.....	87			
14.3.10	Degenerative Disk Disease (DDD).....	87			
14.3.11	Degenerative Joint Disease (DJD)	87			
14.3.12	Extremity Injuries	87			
14.3.13	Overall Performance	87			
15	Surgery: Anterior Cervical Discectomy and Fusion				92
	<i>Andrew M. Hersh, Michael D. White, and Nicholas Theodore</i>				
15.1	Introduction.....	92	15.3.4	Postoperative Care	93
15.2	Preoperative Assessment	92	15.4	Return to Play after ACDF	94
15.3	Surgical Technique.....	92	15.5	Clinical Pearls	94
15.3.1	Positioning.....	92		References.....	94
15.3.2	Dissection.....	93			
15.3.3	Discectomy and Fusion	93			
16	Surgery: Cervical Arthroplasty				95
	<i>Luis M. Tumialán</i>				
16.1	Introduction.....	95	16.4	Complication Avoidance	97
16.2	Preoperative Assessment	95	16.5	Return to Play.....	97
16.3	Surgical Technique.....	96	16.6	Conclusion.....	98
16.3.1	Operating Room Setup.....	96	16.7	Clinical Pearls	98
16.3.2	Positioning.....	96	16.8	Disclosures	98
16.3.3	Decompression of the Segment.....	97		References.....	98
16.3.4	Placement of the Arthroplasty Device.....	97			
17	Surgery: Posterior Cervical Foraminotomy.....				99
	<i>Nicholas M. Rabah, S. Harrison Farber, Michael D. White, and Laura A. Snyder</i>				
17.1	Introduction.....	99	17.7	Complications.....	101
17.2	Indications for PCF.....	99	17.8	Postoperative Care	102
17.3	Diagnostics	99	17.9	Conclusion.....	102
17.4	Nonoperative Management	100	17.10	Clinical Pearls	102
17.5	Pertinent Anatomy	100	17.11	Disclosures	103
17.6	Operative Procedure.....	100		References.....	103

18	Surgery: Posterior Lumbar Decompression and Fusion	104		
	<i>Luis M. Tumialán</i>			
18.1	Introduction	104	18.4.4	Placement of the Interbody 106
18.2	Indications	104	18.5	Complication Avoidance 107
18.3	Preoperative Assessment	104	18.6	Conclusion
18.4	Surgical Technique	104	18.7	Clinical Pearls 108
18.4.1	Operating Room Setup.....	104	18.8	Disclosures
18.4.2	Instrumentation of the Spine	105		References
18.4.3	Decompression of the Neural Elements	106		
19	Surgery: Direct Pars Repair for Spondylolysis	109		
	<i>Christina Sarris, Jakub Godzik, and U. Kumar Kakarla</i>			
19.1	Introduction	109	19.3.2	Techniques 111
19.2	Spondylolysis	109	19.3.3	Outcomes
19.2.1	Presentation	109	19.3.4	Case Presentation 112
19.2.2	Diagnosis	109	19.4	Clinical Pearls 114
19.2.3	Management Options	110	19.5	Summary 114
19.3	Direct Pars Repair	111		References
19.3.1	Indications.....	111		
20	Return to Play after Spinal Injury	116		
	<i>Melanie Alfonso Horowitz, Carly Weber-Levine, Andrew M. Hersh, and Nicholas Theodore</i>			
20.1	Introduction	116	20.6.2	Spondylolisthesis
20.2	Lack of Consensus	116	20.7	Surgical Considerations
20.3	Considerations for RTP Guidelines	116	20.7.1	Anterior Cervical Discectomy and Fusion 119
20.4	Spine Injury Biomechanics	118	20.7.2	Percutaneous Nucleotomy..... 119
20.5	Cervical Spinal Cord	118	20.7.3	Lumbar Discectomy..... 120
20.5.1	Cervical Disk Herniation	118	20.8	Clinical Pearls 120
20.5.2	Cervical Cord Neurapraxia	119	20.9	Disclosures
20.6	Lumbar Spine Injuries	119		References
20.6.1	Lumbar Disk Herniation	119		
21	Congenital Spinal Anomalies and Implications for Athletics	121		
	<i>Adam Ammar, Andrew M. Hersh, and Alan R. Cohen</i>			
21.1	Introduction	121	21.4	Os Odontoideum 122
21.2	Spina Bifida	121	21.5	Atlanto-Occipital Fusion 122
21.3	Klippel-Feil Syndrome	121		

21.6	Atlantoaxial Instability in Down Syndrome	122	21.9	Conclusions	124
21.7	Hemivertebra	123	21.10	Clinical Pearls	124
21.8	Adolescent Idiopathic Scoliosis	123		References	124

Part III: Peripheral Nerves

22	Anatomy and Physical Examination of the Peripheral Nerves	127
	<i>Jesse Stokum and Allan J. Belzberg</i>	

22.1	Scapula	127	22.8	Knee	129
22.2	Shoulder	127	22.9	Ankle	129
22.3	Elbow	128	22.10	Foot	130
22.4	Wrist	128	22.11	Provocative Tests	130
22.5	Thumb	128	22.12	Clinical Pearls	130
22.6	Fingers	128		References	130
22.7	Hip	129			

23	Common Peripheral Nerve Problems in Athletes: Diagnosis and Management	131
	<i>Danielle Golub, Hussam Abou-Al-Shaar, Timothy G. White, and Mark A. Mahan</i>	

23.1	Introduction	131	23.4.1	Sciatic Nerve and Piriformis Syndrome	136
23.2	Burners and Stingers	132	23.4.2	Pudendal Nerve	137
23.3	Upper Extremity Nerve Injuries	133	23.4.3	Lateral Femoral Cutaneous Nerve	137
23.3.1	Thoracic Outlet Syndrome	133	23.4.4	Femoral Nerve	137
23.3.2	Other Nerve Injuries about the Shoulder: Suprascapular Nerve, Long Thoracic Nerve, and Axillary Nerve	134	23.4.5	Fibular Nerve	137
23.3.3	Musculocutaneous Nerve	134	23.4.6	Tibial Nerve	138
23.3.4	Median Nerve	135	23.4.7	Morton's Neuroma	138
23.3.5	Ulnar Nerve	135	23.5	Conclusions	139
23.3.6	Radial Nerve	136	23.6	Clinical Pearls	139
23.4	Lower Extremity	136		References	139

Part IV: Sports

24	American Football	143
	<i>Randall W. Porter, Joseph D. DiDomenico, D. Scott Kreiner, Javier Cardenas, and Wayne Kuhl</i>	

24.1	Introduction	143	24.2.2	Diagnosis	145
24.2	Cervical Spine Injuries in Football Players	143	24.2.3	Management	145
24.2.1	Epidemiology and Pathogenesis	143			

24.3	Thoracolumbar Spine Injuries in Football Players	146	24.4	Return to Play	148
24.3.1	Epidemiology and Pathogenesis	146	24.5	Clinical Pearls	148
24.3.2	Diagnosis	147	24.6	Disclosures	150
24.3.3	Management	147		References	150
25	Soccer				151
	<i>Vikas Vattipally, Carly Weber-Levine, and Nicholas Theodore</i>				
25.1	Introduction	151	25.4	Peripheral Nerve Injuries	155
25.2	Brain Injury	151	25.4.1	Facial Nerve (Cranial Nerve VII) Injury	155
25.2.1	Concussion	151	25.4.2	Brachial Plexus Injury	155
25.2.2	Subconcussive Heading, Neuropsychological Changes and Controversies	153	25.4.3	Sciatic Nerve Branches (Fibular Nerve, Sural Nerve) Injury	155
25.2.3	Neurodegenerative Disease and Controversies	153	25.5	Conclusions	155
25.2.4	Intracerebral Hemorrhages	154	25.6	Clinical Pearls	155
25.3	Spine Injury	154	25.7	Disclosures	156
25.3.1	Spinal Degenerative Changes	154		References	156
25.3.2	Spinal Cord Injury	155			
26	Golf				157
	<i>Corey T. Walker, S. Harrison Farber, D. Scott Kreiner, and Randall W. Porter</i>				
26.1	Introduction	157	26.4	Surgical Management and Return to Play Guidelines	161
26.2	Pathogenesis of Spinal Disease in Golf	157	26.5	Conclusions	162
26.2.1	Repetitive Traumatic Diskopathy	158	26.6	Clinical Pearls	162
26.3	Treatment of Spinal Disease in Golf	158	26.7	Disclosures	162
26.3.1	Physical Therapy and Rehabilitation	160		References	163
26.3.2	Swing Modifications	161			
27	Cycling				164
	<i>Carly Weber-Levine, Andrew M. Hersh, and Nicholas Theodore</i>				
27.1	Introduction	164	27.4.3	Pudendal Nerve	166
27.2	Brain	164	27.5	Conclusions	167
27.3	Spine	164	27.6	Clinical Pearls	167
27.4	Peripheral Nerves	166	27.7	Disclosures	167
27.4.1	Ulnar Nerve	166		References	167
27.4.2	Median Nerve	166			

28	Rowing				169
	<i>A. Karim Ahmed, John Theodore, and Nicholas Theodore</i>				
28.1	Basic Technique	169	28.4	Prevention and Treatment	170
28.2	Common Spinal Injuries	170	28.5	Clinical Pearls	171
28.3	Imaging	170		References	171
29	Professional Motorsport Racing				172
	<i>Arjun K. Menta, Carly Weber-Levine, Andrew M. Hersh, and Nicholas Theodore</i>				
29.1	Introduction	172	29.3	Safety Equipment for the Prevention of Neurological Injury	175
29.2	Different Types of Neurological Injury	172	29.4	Conclusion	175
29.2.1	Brain Injury	172	29.5	Clinical Pearls	175
29.2.2	Spinal Cord Injury	173		References	175
29.2.3	Peripheral Nerve Injury	174			
30	Gymnastics				178
	<i>Carly Weber-Levine, Kelly Jiang, and Nicholas Theodore</i>				
30.1	Introduction	178	30.3.2	Degenerative Disc Disease	180
30.2	Brain Injuries	178	30.3.3	Other Spinal Injuries	180
30.2.1	Mechanism of Injury	178	30.4	Prevention of Injury	180
30.2.2	Symptoms	178	30.5	Conclusions	181
30.2.3	Diagnosis	178	30.6	Clinical Pearls	181
30.2.4	Treatment	178	30.7	Disclosures	181
30.3	Spine Injuries	179		References	181
30.3.1	Spondylolysis	179			
31	Equestrian				183
	<i>Meghana Bhimreddy, Andrew M. Hersh, and Nicholas Theodore</i>				
31.1	Introduction	183	31.6	Prevention and Protective Measures	185
31.2	Mechanism of Injury	183	31.7	Conclusion	185
31.3	Risk Factors	183	31.8	Clinical Pearls	185
31.4	Brain Injuries	183	31.9	Disclosures	185
31.5	Spine Injuries	184		References	187
31.5.1	Vertebral Column Fractures	184			
31.5.2	Spinal Cord Injury	185			
32	Baseball				189
	<i>Zoe Soulé, Denis Routkevitch, and Nicholas Theodore</i>				
32.1	Introduction	189	32.2	Biomechanics and Basic Technique	189

32.2.1	Pitching	189	32.6	Peripheral Nerve Injuries	192
32.2.2	Batting	189	32.6.1	Suprascapular Neuropathy	192
32.3	Catastrophic Injuries in Baseball	189	32.6.2	Ulnar Neuropathy	192
32.4	Noncatastrophic Spine Injuries	190	32.7	Prevention of Injuries	192
32.4.1	Disc Herniation	190	32.8	Disclosures	192
32.4.2	Lumbar Spondylolysis	191		References	192
32.5	Traumatic Brain Injuries	191			
33	Skiing	194			
	<i>Nicholas Kats, Denis Routkevitch, and Nicholas Theodore</i>				
33.1	Introduction	194	33.2.3	Treatment, Management, and Rehabilitation	196
33.2	Spinal Injuries in Skiing	194	33.2.4	Prevention	196
33.2.1	Epidemiology, Nature of Injury, and Biomechanics	194		References	197
33.2.2	Diagnosis	196			
34	Combat Sports	198			
	<i>Noah Lu, Max J. Kerensky, Andrew M. Hersh, Denis Routkevitch, Annie Pan, and Nicholas Theodore</i>				
34.1	Introduction	198	34.4	The Nerves in Combat Sports	200
34.2	The Brain in Combat Sports	198	34.4.1	Common Nerve Injuries in Combat Sports	200
34.2.1	Common Brain Injury Forms in Combat Sports	198	34.4.2	Prevalent Nerve Injuries in Boxing	200
34.2.2	Prevalent Brain Injuries and Return to Play Rules in Boxing	198	34.4.3	Prevalent Nerve Injuries in Wrestling	200
34.2.3	Prevalent Brain Injuries and Return to Play Rules in Judo	199	34.4.4	Nerve Injury Imaging and Clinical Care	200
34.3	The Spine in Combat Sports	199	34.5	Preventative Measures and the Future Directions of Combat Sports	200
34.3.1	Common Spine Injuries in Combat Sports ...	199	34.6	Clinical Pearls	201
34.3.2	Prevalent Spine Injuries and Return to Play Rules in Wrestling	200	34.7	Disclosures	201
34.3.3	Prevalent Spine Injuries in Boxing	200		References	201
35	Ice Hockey	202			
	<i>Victoria Bergstein, Carly Weber-Levine, and Nicholas Theodore</i>				
35.1	Introduction	202	35.3	Spine	203
35.2	Brain	202	35.3.1	Symptoms	203
35.2.1	Symptoms	202	35.3.2	Diagnosis	203
35.2.2	Diagnosis	203	35.3.3	Treatment	203
35.2.3	Treatment	203	35.3.4	Prevention	203
35.2.4	Prevention	203			

35.4	Peripheral Nerves	204	35.6	Clinical Pearls	206
35.4.1	Burners.....	204	35.7	Disclosures	206
35.4.2	Axillary Nerve.....	204		References	206
35.4.3	Peroneal Nerve.....	205			
35.5	Conclusion	205			
36	Weightlifting				207
	<i>Vikas Vattipally, A. Daniel Davidar, Kimberly Ashayeri, and Nicholas Theodore</i>				
36.1	Introduction	207	36.3.1	Spine.....	208
36.2	Pathophysiology of Weightlifting Injuries ...	207	36.3.2	Peripheral Nerve.....	209
36.2.1	Athlete Baseline Factors.....	207	36.4	Conclusion	210
36.2.2	Physiological Forces.....	207	36.5	Clinical Pearls	210
36.2.3	Onset of Injury.....	208	36.6	Disclosures	210
36.3	Common Injuries Caused by Weightlifting	208		References	210
37	Rugby				212
